Professional Summary

Creative and hands-on production professional with over 30 years of experience in art, design, production, and creative development. Background includes graphic design, production paste-up, illustration, sculpting, multimedia design, custom artwork, concept development, and visual layout. Since the mid-1980s, I have developed strong traditional and digital creative skills, with the ability to take an idea from rough concept to finished professional design.

Core Skills

- Graphic design and visual layout
- Illustration and custom artwork
- Production paste-up and print preparation
- Multimedia design and creative presentation
- Sculpting, model-making, and hands-on fabrication
- Logo design, branding, and visual identity
- Character design and concept art
- T-shirt, merchandise, and promotional design
- Creative problem-solving and project planning
- Detail-focused quality review and final presentation

Experience Highlights

- Created custom art, layout concepts, and finished designs for personal, freelance, and business projects.
- Developed visual ideas from early sketches and rough concepts into polished final artwork.
- Applied production experience to prepare artwork for print, merchandise, promotional materials, and presentation use.
- Used hands-on fabrication and sculpting skills to support creative builds, models, and dimensional artwork.
- Maintained a strong eye for detail, visual balance, craftsmanship, and final quality before delivery.
