EXPERIENCE

Project-Based Web Developer

Esol Tech

📅 06/2024   📍 Location

- Crafted responsive websites using HTML, CSS, jQuery, and JavaScript, delivering seamless and visually appealing user experiences
- Converted Figma and PSD designs into fully functional, responsive web applications, ensuring accurate design implementation
- Collaborated with design and content teams to refine user interfaces and optimize site usability across multiple devices
- Implemented performance improvements that boosted site speed and user engagement
- Integrated user feedback to iterate on key features, continuously enhancing overall site performance and functionality

EDUCATION

Bechular of Information Technology

university of punjab

📅 2024 - Present   📍 Lahore, Pakistan

- I am continuing degree in information technology where I will learn skills about computer and enhance my knowledge.

PROJECTS

Commerce project

📅 2024 - 2024   📍 Location

Convert a whole commerce site into code.

- I am experienced in converting complete websites into clean, functional code with a focus on perfection and attention to detail. I ensure pixel-perfect accuracy according to design specifications using HTML, CSS, Bootstrap, JavaScript, and other relevant technologies. I prioritize delivering high-quality, professional websites through thorough research and a client-focused approach.

SUMMARY

I'm a web developer skilled in HTML, CSS, jQuery, and JavaScript. Furthermore, I love creating responsive and dynamic websites that offer great user experiences. I'm looking for an opportunity to work with a team where I can apply my skills, learn new things, and contribute to innovative web projects.
