PERSONAL STATEMENT

With 12 years of expertise spanning web application design, database architecture, ETL data representation, and hybrid mobile app development, I offer a versatile skill set to enhance your projects. I specialise in crafting robust database solutions for MSSQL, Oracle, and MYSQL, and I excel in creating cross-platform mobile apps with MAUI and Flutter. Leveraging MS Power BI and Tableau, I transform complex data into actionable insights while prioritising data security. Proficient in a wide array of web technologies. I stay current with tech trends to provide market-friendly and future-proof solutions. Renowned for reliability, punctuality, and a commitment to confidentiality, I thrive on problem-solving and innovation. My academic background, featuring an MCA from Punjabi University, underscores my practical experience.
