

RESUME

I am Chandan possess 12+ years of professional experience in WordPress, PHP, Shopping Cart MySQL, CodeIgniter, Laravel, Yii, Zend framework, Cake PHP etc.

My strong point is to concentrate on custom code because we can not get 100% from external source in form of plugins and modules. Custom code gives us complete control on system, we can do whatever required and easily achievable.

I have a professional and expert member on my team. I have experience in building sites alone and in team, and can build a site from the ground up including back-end and front-end. On this level of experience I can execute following :

- SRS of project
- Technical Documentation
- Functional Requirement Document(FRD)
- Use cases
- Database structure (ER Diagram, schema structure)
- Server setup (configuration, apache setup, apache solar, memcache, varnish)
- Technical development and deployment with Standards
- Design(Web and Graphic)
- Quality Analysis
- Project Delivery

I have worked on numbers of projects out of few are :

PHP Projects:

Datatel :

<http://team.datatel.com.au/> = Admin URL

<http://datatel.com.au/> = FrontEnd URL

FastExpert :

<http://www.fastexpert.com/>
