Photos are no longer enough

Consumers want Videos!

Before even stepping into a dealership, the consumer knows what they want! The combination of photos, videos and vehicle description is the best way to deliver all the information the consumer requires for an informed decision before purchasing. Xcite videos achieve this!

HD Videos for every vehicle listed on an automotive website has the following benefits:

- Engages Shoppers
- Increases Time On Site and Time On Page
- Converts Shoppers to Buyers
- Demonstrates Your Product Online Better than Any Other Media
- Builds Trust
- Video is an SEO Optimizer

Making full-motion video available for dealer listed vehicle on a automotive website. The website will increase its value proposition to its dealer customers.

In the last few years there has been an explosion of video consumption and video content produced. You Tube the leading video website has over 4 billion views a day.

Online automotive websites such as carsales.com.au has relied on photos to showcase vehicles since the mid 90's. It is no longer sufficient to showcase vehicles with just photos. Today's online consumers demand more available information about a vehicle than ever before.

By using our advanced software technology and incorporation with professional Photographers we can have your dealership on the A list in no time!

Xcite delivers!

VIDEO increases visibility (SEO)
VIDEO engages shoppers and builds trust
VIDEO increases time spent on your website
VIDEO enables higher lead conversion rate
