Projects

Mitusis

May 2011 to Present

Members: Yogesh Mathur, Oscar Arevalo, Greg Spehar, MBA

Mitusis.com is developed for expert, non-profit or small business owner to maintain and promote their network helping them earn, save and secure their most precious asset, Time. With a state of the art membership model, Zero hardware Point of Sale solution and multiple identity model, the MiTu Services can help your group earn money, save you time and ensure your network of customers and members are protected from prying eyes.

MiTu Service that is hosted on Amazon servers so that the Service can handle hundreds or thousands of transactions per second. As Developer I have developed some of core featured of mitu

Mitusis.com is developed in Coldfusion with mysql as backend. This project also jquery. Project is hosted on amazone EC2 server and usages railo in place of coldfusion server.

Broadband Product Qualification

September 2007 to April 2009

Members: Yogesh Mathur, Arun Kumar, Jim Recktenwald, Ashokkumar Madanlal, Derek Phair, DCS, Michael Elrom, John Gilmer, Srinivas Boreddy

The Broadband Product Qualification (BPQ) project delivered a mission critical tool to be used by customers, service representatives, and field technicians for the purpose of determining broadband internet products available to a given location. The highly complex process for this determination had to be fast and available 24/7/365. It required direct and middleware interfacing with multiple systems that included engineering, infrastructure, billing, and customer support solutions. The successful delivery of this project resulted in an immediate revenue increase on a scale in the millions of dollars.

Yogesh Mathur

Need a Coldfusion project done ? Contact me.

ymathur.yogesh@gmail.com

27 people have recommended Yogesh

"Yogesh has done a great job as part of the development team for the Mitusis website and platform, he showed a lot of initiative and creativity as well as extensive knowledge of the CFML language and web development in general. He is a great asset to the Mitusis team."

— **Oscar Arevalo**, *Lead Architect / Co-founder, Mitusis.com*, worked directly with Yogesh at Mitusis.com

"Yogesh is an expert in many programming languages and a Sr. Coldfusion Developer with over 12 years experience. He jumped right in and fixed our cfm issues quickly with outstanding communication on the process. Top attributes, select 3 was not enough because Yogesh is also Personable (excellent English), Good Value, On Time and Creative. I am keeping Yogesh as part of my sub-contractor team!"

— **Diana Nashif**, was Yogesh's client

"Yogesh is consistent, meets deadlines, and quickly asks questions when there is any uncertainty. He has quickly accepted and learned any internal development methodologies, frameworks, and workflows which makes it easy to integrate his work into a team environment. I can rely on his word and the work product I receive. I especially appreciate his methodical approach in multi-faceted projects or when turning verbal conversations into actionable project requirements."

— **Ben Riordan**, was Yogesh's client

"Yogesh answered an Ad on ODesk designed to frighten enterprise wanabe's from applying. The deadline was tight, the unknowns were great, and he did the job with professionalism and in 1/2 the time allotted. Cold Fusion is my most un-favorite language and he took a long-standing problem that others had failed to grasp, and turned out a solution with a can-do attitude and excellent communication skills. He is personable, has high integrity, and provides excellent value for what some would consider a US hourly rate. For his skill level, you will be hard pressed to find anyone close at a lesser rate. His experience working in the US is apparent and unlike many, he delivers to deadlines."

— **Curtis Fisher**, was Yogesh's client

"Yogesh is a great communicator and has helped tremendously at moving projects forward with quality ColdFusion / MySQL coding."

— **Shawn Fairweather**, was Yogesh's client

"Yogesh has provided web programming services for our company on several different occasions. He has exceeded expectations in both communication and quality of work. He is at the top of my list of contractors for projects that require back-end programming."

— **Elizabeth Collins**, was Yogesh's client

"Yogesh is very detailed in his work. He makes sure we both know exactly what needs to be done and what he has done. He is also very easy to get ahold of. I live in the US and he lives in India and I can Skype him and he answers the calls. This is extremely important for my business. He also makes himself available to handle immediate issues. His english is excellent as well. Very easy to work with and higly professional. I would highly recommend Yogesh!"

— **Karen Roberts**, was Yogesh's client

"Yogesh is always extrememly reliable and dedicated. He makes sure he understands what I need and always does an excellent job."

— **Margaret Phillips**, was Yogesh's client

"Yogesh helped Cumulus develop creative customized solutions for our enterprise Wordpress platforms that we use for B2B and intranet purposes. He really opened our eyes to things that were possible on the Wordpress system. When tasked on both high-level/open-ended challenges as well as highly specific projects, Yogesh delivered rapidly and with very high quality levels. We look forward to working with Yogesh again in the future!"

— **Bill Hansen**, *Vice President, Development, Cumulus Media*, managed Yogesh at Cumulus Broadcasting

"I'm happy to recommend Yogesh for systems analysis and application development positions. He provided crucial application development and systems trouble-shooting contract services at Oregon Employment Department. He is highly proficient with the ColdFusion environment using ColdBox and other object oriented methodologies, as well as business and systems analysis. He provided excellent problem resolution and customer service demonstrating a strong work ethic and effective communications."

— **Leonard Higgins**, was Yogesh's client

"Yogesh was one of the sharpest contractors we hired. He was extremely knowledgeable, wrote clean code, and was prolific. He was helpful, documented his work well, and helped us through a rough project. I would hire him again if I could."

— **Alan Rogers**, was Yogesh's client

"I worked with Yogesh for over two years at the Oregon Employment Department. During that time, I found Yogesh to be a great asset to the web team. He exhibited expert knowledge and professional work ethic the entire time. Yogesh would be an excellent addition to any team or project."

— **Brad Melendy**, *Web Administrator, Oregon Employment Department*, managed Yogesh indirectly at Oregon Employment Department

"Yogesh has the ability to look at a development challenge, research possible tools and techniques and deliver sound solutions quickly. I valued Yogesh's technical proficiency and his business professionalism. I would welcome an opportunity to work with Yogesh in the future."

— **Edward Hixon**, *Senior Systems Analyst, Oregon Employment Department*, worked directly with Yogesh at Oregon Employment Department

"Working with Yogesh has been a great experience since his ability to quickly comprehend the business requirements allows him to prototype and implement solutions that meet the needs quickly, allowing me to focus on managing the feature stack and defects needing to be corrected. He asks critical questions to ensure that his implementation is as accurate as possible and is focused and quick to correct any defects or requirement changes that are required before launch of the feature. He has been a critical resource to me on two projects to date and I would hire him again on other projects that I have in the future."

— **Greg Spehar, MBA**, was Yogesh's client

"I was really lucky enough to work with him for couple of years. We worked on couple of projects together...I found him very competent and helpful. I like his 'Never Say Die' attitude, and appetite to learn new stuff. Good Luck!!"

— **Barath Alam**, *Systems Analyst, Oregon Employment Department*, worked directly with Yogesh at Oregon Employment Department

"Yogesh was a pleasure to work with. He was fast and accurate, and was able to resolve issues quickly. He adapted to new technologies with no effort, and was always willing to help others. He gets along well with his co-workers, and is a great team player."

— **Gary Johnson**, *Systems Analyst III, nextSource*, worked directly with Yogesh at Oregon Employment Department

"Yogesh was the developer on my team and did an outstanding job of developing, testing and supporting the system. I would highly recommend him as he is professional and a great team member. His productivity is outstanding. Good Luck, Yogesh."

— **Lisa Renner**, *Sr. Project Manager, Madrona Project Consulting*, managed Yogesh indirectly at Oregon Employment Department

"Yogesh is an excellent resource who was instrumental in the analysis and production of several of our ColdFusion online applications. He was our go-to guy whenever we had a tough coding challenge. His thoughtfulness and innovation helped us deliver some great products to our customers. -- Bill Rickman Team Lead - Web Development Information Technology Services Oregon Employment Department"

— **Bill Rickman**, was Yogesh's client

"June 23, 2009 Philip S. Bude PCT SR Developer Pacific Crest Technology Tualatin, Oregon This is in response to your recent request for a letter of recommendation for Yogesh Mathur who worked for PCT the last couple of years. Yogesh is a hard-working self-starter who invariably understands exactly what a project is all about from the outset, and how to get it done quickly and effectively. During his first year working for the client "Wind Stream" in the Analyst position, I cannot remember an instance in which he missed a major deadline. In fact, his tasks were even completed ahead of schedule. Mr. Mathur is a resourceful, creative, and solution-oriented person who was frequently able to come up with new and innovative approaches to his assigned tasks. He functioned well as a leader when required, and he also worked effectively as a team member under the direction of the other team leaders. On the interpersonal side, Yogesh has superior written and verbal communication skills. He gets along extremely well with client and PCT management, as well as colleagues at his own level. He is highly respected, as both a person and a professional, by colleagues, employees, and clients alike. In closing, as detailed above, based on my experience working with him, I can unreservedly recommend Yogesh Mathur to you for any intermediate or senior Information Systems position. Sincerely, Philip S. Bude"

— **Philip Bude**, *Sr. Developer, PCT*, worked with Yogesh at Pacific Crest Technology

"Yogesh is a very knowledgeable and reliable individual who proved his technical expertise time and time again. I would gladly have him on a future team, should the opportunity present itself."

— **Ben Smith**, *Web Applications Team Lead, Pacific Crest Technology*, managed Yogesh at Pacific Crest Technology

"Yogesh is a talented developer with great work habits. He is very easy to work with and can be relied on to complete task in a timely manner."

— **Randy Wood**, *Program Manager, Pacific Crest Technology*, managed Yogesh indirectly at Pacific Crest Technology

"Yogesh is a dedicated senior developer who delivers quality products for both maintenance and project work all the while meeting pressing deadlines."

— **RuthAnne Roesener**, was Yogesh's client

"I had the good fortune to have Yogesh on my team while at PCT. Yogesh was a key contributor to the team and demonstrated the highest level of technical expertise. Our team was presented with many challenges and deadlines and Yogesh was always willing to go the extra mile to get the job done. On top of that, Yogesh is an excellent team player and a great person all-around."

— **Ron Eberle**, *Program Manager, Pacific Crest Technology*, managed Yogesh at Pacific Crest Technology

"Yogesh is smart and a versatile Web Developer with extensive knowledge wherein I have learned many

technique's about web applications...and he is on track with the current trends/technologies in the web technologies. And we have worked together in Prodapt for a Large Conversions like DRS ADSL2+ Project where he was responsible for the complete UI Design, WDSL, Requirement gathering for the front end ColdFusion and Oracle and he managed a team of 8 web developers. His broad knowledge in ColdFusion, PHP, Perl, Python, MySQL, Oracle, PostgreSQL, JavaScript, jQuery, ASP, .NET technologies and blog's like Wordpress, Drupal, Joomla, vBulletin and Search Engine Optimization technique. He is creative, solution oriented and reaches his target with innovative approach. And he has good written and verbal communication skills. And is very friendly and open to any ideas even though he is good enough to train others. And mainly he is open to listen to everyone regardless of his work pressure. I would love to work with him again in future..!!"

— **Ashokkumar Madanlal**, *Technical Lead, Prodapt North America (formerly Pacific Crest Technology)*, worked directly with Yogesh at Prodapt

"Yogesh is an extremely bright, detail oriented technical mind. He rose pretty quickly in the ranks and was sent on an assignment to the US given his expertise on technical projects as well as his ability to quickly understand customer's business needs. A contentious worker who completes his assignment - hell or high tide! A great asset to any team; I wish him the very best!"

— **Rajesh B**, *Head – 'CGO' Business Unit, Prodapt Solutions*, managed Yogesh indirectly at Prodapt Solutions

"Yogesh is good manager and team player in managing the projects and client communication. He will guide and encourage lower cadre people and support very well managers. He is very active and continue work on new challenges.."

— **Tara Kumar Gajula**, *Project Lead, Prodapt Solutions Pvt Ltd*, worked with Yogesh at Prodapt Solutions

"Yogesh has hands on experience over various Web application technologies, keep himself upto date on the Technical Market."

— **Arun Kumar**, *Software Engineer, Prodapt*, worked with Yogesh at Prodapt Solutions
