Objective

Talented freelance designer currently seeking contract work in the Web and Graphic industry. Formerly studying and doing freelance work on the side, mainly for private and small corporations, I wish to expand my network and take on new projects with clients to produce engaging and brilliant designs.

Professional Experience

FREELANCE   **2010 - Current**
Graphic Designer

Currently involved with both US and International jobs, with a client list including: **Prost! Chicago, Titan Total Fitness, Cafe F3, Awkward Sydney, James Burke Associates, Neutral Bay Bar** & **Dining and University of Technology Sydney.**

I have been involved in the full design process; Concept to Production and Finalization, never missing a deadline or having a negative result.

Responsibilities as a Freelancer have consisted of:

Corporate Design in the form of print and digital media, including brand development, business cards, legal/office documents, powerpoint presentations, flash banners website design and development.

Small to Medium Businesses needing advertising campaigns ranging from admail, to in-house 11x17 prints, even large scale 7'3' outdoor banners and publicised advertisements.

Private Businesses in collaboration with clients to create menu designs, business cards, branding development, clothing line production, large scale translite displays and publicised advertisements.

Skills

Word   ●●●●●●●●●○

Web Code:

HTML4+5   ●●●●●●○○○○○
CSS2+3   ●●●●●●○○○○○
Javascript   ●●○○○○○○○○○

Education

QANTM/SAE College   Sydney, Australia
Bachelor of Creative Media - Graphic Design Major
Class of 2011

About Me

I have been doing professional work with clients since 2010, however, I consider myself to have over 20 years experience in designing. I have been drawing, designing and constantly thinking about design and many elements of the industry as a child. From the age of 6 I began to illustrate and quickly became fascinated with all aspects of the graphic design world.

As web has become more popular and powerful over time, my attraction to Web Design has grown significantly. I am extremely interested in the world wide web, creating new, innovative sites for the web, and designing perfect elements to complete the pristine visual effect that each modern day website should have.
