Digital Design

Overview

Over the past five years I have been designing many different types of media. Two places I have placed most of my focus on has been logos and websites. As not every design is perfect for a customer, I have always taken in feedback on how to one improve the project I am currently working on as well as future projects. Never have I left a customer unhappy with the work I have provided them. A verifiable track record of success backed by impeccable references. Areas of expertise include:

- *Exceptional Customer Service
- * Web Design
- * Logo Design
- * Flyer Design
- *Troubleshooting
- *Repairing Websites
- *Computer/POS Scanning Use
- *Key Holder
