WORK EXPERIENCE

Claravine (B2B Web SaaS)   **Mar 2022 - Feb 2023**
Senior Software Engineer   *Remote, US*
- Scaled a data platform to meet enterprise governance workflows for Fortune 500 companies.
- Introduced behavioral security into the SaaS product by flagging suspicious login activity using PHP, Kotlin, and React.
- Maintained an excellent customer Net Promoter Score (NPS) by quickly learning and contributing in diverse areas of the product, including Kotlin Spring API, NodeJS microservices, PHP Laravel, and multi and single-tenant databases.
- Reduced manual regression testing by 50% by writing end-to-end automation tests in Playwright and unit tests in PHPUnit.

iWorQ Systems   **Jun 2021 - Mar 2022**
Director of Development   *Logan, UT*
- Decreased feature time to market by development resourcing, timelines, and 3rd party integrations to increase developer productivity and ensure technology best practices and budget.
- Managed company AWS environment to ensure optimal infrastructure quality, performance, and budget.
- Built local development environments using Docker, PHP, and Bash to standardize developer experience, increasing developer throughput and productivity.

iWorQ Systems   **Aug 2019 - Jun 2021**
Senior Development Manager   *Logan, UT*
- Managed a team of 8 engineers and was responsible for their mentorship, growth, performance evaluation, and job satisfaction.
- Increased code deployment quality by building continuous integration/delivery pipelines using Bitbucket Pipelines, Docker, and Bash.

iWorQ Systems   **May 2015 - Aug 2019**
Application Developer   *Logan, UT*
- Built, tested, and maintained new features using PHP, Docker, and VueJS to increase user system productivity.

EDUCATION

BA, Communication Studies (3.6 GPA)   **May, 2013**
Utah State University
