## Personal Statement

I am an enthusiastic 25-year-old Civil Engineer, who has recently graduated from the Catholic University of Córdoba (UCC), in the city of Córdoba, Argentina. I would like to gain international experience in order to broaden my horizons and increase my knowledge of the world. I really enjoy working in a team environment and I get along well with people. Besides, I am quite an inquisitive and motivated person and I am eager to learn from different experiences.

---
