ABOUT ME

I am passionate about design, travel, music and culture. I've been designing since I was a little kid. I'm highly creative, yet very technical, fluent in the latest web technologies and languages. I use my skills to create, design and develop a harmony of function and art.

- fluent in current web languages such as jQuery, Bootstrap (responsive design), CSS3 and more
- over 16 years experience in professional website development
- over 20 years experience in design, layout and color science

resume
