I am able to conceive, formulate and effectively communicate solutions to technological problems in society. With technical competence through advanced and comprehensive knowledge of the practical aspect of coding and software engineering, including analytical and design skills and of the technical tools to meet the engineering requirements.

To get an opportunity where I can make the best of my potential and contribute to the organization's growth.

I am a dedicated, hard working, fast learner and proactive Software Engineer with strong background in designing, implementing, testing, and analyzing processes to increase the overall efficiency of operations.

Work History

2020-12-

Current

Full Stack Web Developer

LogicWorms, Rawalpindi

- Developed efficient and maintainable software according to business objectives and needs of clients.
