OBJECTIVE

I am a post graduate student at the Indian Institute of Management Kashipur. I pursued Electrical Engineering in my undergraduate studies and I enjoy all chances that come my way to build and discover something new. I am inquisitive by nature and am great at meeting new people and making friends. I am a voracious public speaker and it forms one of my core competencies. I am analytical by nature and enjoy Mathematics and Statistics. I am looking into a career of finance, which challenges and thrills me with the chance to work towards an elegant solution. I am looking forward to join a prestigious financial institution and work my way up to the top of the corporate chain.
