Project: Skywell Smart Tracking Landing Page

Goals :

- To develop a landing page that sells a unique mobile application for shopping and entertainment centers - "Skywell Smart Tracking"

Results :

- An in-depth analysis of the target audience was done. As a result, the page that sells with colorful design and a clear description of the advantages of a mobile application for visitors, tenants and marketing services, shopping centers was created.
- We have achieved 10%* conversion rates "in the target application" (lead)
- The landing page ensured stable 2%* order conversion (the amount of orders out of the total number of visitors of the site)

Technologies :

- HTML5
- CSS 3.0
- Java Script

* It is an average rate and is calculated for the entire period of the campaign
