Alexander
iOS developer at RIT company

SUMMARY

Hi, I'm Alexander.
I'm working at RIT company, enterprise solution provider (www.rit-js.com)

I'm passionate about iOS application development and have nineteen years in IT sphere and software engineering.
As an engineer I understand the necessary to combine the high performance of technical tasks and responsibility of providing business values.

So I'll be happy to join your team on outstaffing or Time&Material basis to bring you real business result.
