Objective:

Highly skilled Front-End Graphic Designer with a passion for creating visually appealing and user-friendly designs. Seeking a challenging position where I can utilize my technical expertise and artistic abilities to deliver innovative and engaging design solutions.

Education:

Master in Computer Science,
Bhavnagar University, 2015

Skills:

- Proficient in front-end development languages: HTML5, CSS3, JavaScript
- Strong knowledge of graphic design principles and best practices
- Proficient in design software such as Adobe Creative Suite (Photoshop, Illustrator, InDesign)
- Experience with responsive design and mobile optimization
- Familiarity with UI/UX principles and wireframing tools
- Attention to detail and ability to work on multiple projects simultaneously
- Excellent communication and collaboration skills

Experience:

Front-End Graphic Designer
2023

- Collaborated with the design team to create visually appealing and user-friendly website designs, landing pages, and email templates.
- Translated design concepts into responsive HTML/CSS code to ensure seamless user experiences across multiple devices and browsers.
- Implemented JavaScript functionality to enhance interactivity and user engagement.
- Optimized graphics and images for web and digital platforms while maintaining visual quality and performance.
- Worked closely with clients to understand their design requirements and provided timely updates and revisions based on feedback.

Graphic Design Intern
2015

- Assisted in the design and development of various print and digital marketing materials, including brochures, flyers, and social media graphics.
- Assisted with photo editing and retouching to enhance visual appeal and ensure brand consistency.
- Supported the design team in creating visually appealing presentations for client pitches and internal meetings.
- Conducted market research to identify current design trends and competitor analysis to inform design decisions.

Projects:

- Created a responsive website for a local business, implementing modern design trends and ensuring seamless user experience across different devices.
- Designed and developed an interactive web application for a non-profit organization, enabling users to engage with the organization's mission and goals.

Thanks
