Professional Summary

AI Engineer with 3+ years of experience in designing and implementing intelligent systems. Skilled in integrating AI technologies like OpenAI (ChatGPT), building automation workflows, and developing scalable backend solutions. Proven ability to deliver AI-driven features such as chatbots, content generation, and data processing systems for real-world applications.

Key Skills

- AI Integration (OpenAI, ChatGPT)
- Machine Learning & Data Processing
- API Integration & Backend Development
- Python, Node.js, PHP
- REST APIs & System Architecture
- Automation & Workflow Systems
- Performance Optimization

Professional Experience

AI Engineer | GateTouch

Duration: 3+ Years

- Developed AI-powered solutions including chatbots and content automation tools.
- Integrated OpenAI APIs into web and mobile platforms.
- Built scalable backend systems and optimized API performance.
- Worked on CRM, eCommerce, and enterprise automation platforms.
- Designed real-time systems for handling high user loads and automation workflows.

Key Projects

- AI Content Generator – Automated content creation system using OpenAI APIs.
- AI Chatbot System – Intelligent chatbot integrated with CRM systems.
- Automation Workflow Engine – AI-driven automation for business processes.

Education

Bachelor's Degree in Computer Science / IT (or relevant field)
