- o **Online Food Delivery E-Commerce System** – HTML5,CSS3,Javascript,Handelbar.js **,** JSON**,** PHP(Laravel-3) , MySQL

   Web Link: www.hungrynaki.com .

- **Online Food Delivery Tracking System** – HTML5,CSS3,Javascript,JSON**,** PHP(Laravel-4) , MySQL ,AJAX, REST-API

  Web Link: http://delivery.hungrynaki.com/

- **Ecommerce Accounts** – HTML5,CSS3,Javascript,JSON, REST-API, `Angular.js(Generator:HotTawel,gulp)`

  Web Link: http://accounts.hungrynaki.com/

- **University Project** –Dormitory Management System UI Design With Bootsrap, CSS3 , PHP , MYSQL.

THESIS

I, with my group member have done a thesis on "**Human Mind Reader**" for the fulfillment of Bachelor degree. In this project, we were trying to classify different songs according to human emotion. For taking input from human emotion, we have used face recognition and image processing. For recognizing the human facial expression and human sentimental reaction, we have implemented natural language processing. In this way, we marked some values. Beside we've used some algorithm to classify songs by the song tempo and tune of musical instrument. We've also set some numerical values to words and classify positive and negative words. Then both results are processed for the outcome of desired expression. This idea can be used as a mobile application to play a song according to the human facial expression.

WORKSHOP

Participated Workshop and Seminar hosted by the Department of Computer Science of American International university – Bangladesh on 5th April, 2012. **Workshop and seminar on:**

- o   Data and Metadata visualization
- o   Simple UI design with flash
- o   Using reference tools in references
- o   Self-Organized multi-agent system

INTEREST

- o   Reading novels and stories
- o   Nature photography
- o   Enjoy and singing songs
- o   Travelling in different place and meeting with different peoples.

PERSONAL INFORMATION

Father Name	Md.Mokter Hossain.
Mother Name	Ferdousi Hossain.
