## HARD SKILLS

### LEADERSHIP

I pursue a natural calling to connect talents for doing useful things, constantly building my reputation with authenticity, respect for others and integrity.

### STRATEGIC THINKING AND EXECUTION

Strategic foresight and integrative leadership as part of my daily routine. My balanced and multi-faceted personality, can-do mentality; cares about real (product) value vs. short-term, spammy tactics.

### CHANGE-MANAGEMENT

Able to lead a transformation agenda and capable of driving transformational change with proven track record in leading product teams for B2C and B2B companies. Strong analytical background, experience in scientific research and method.

### ARTISTIC AND CREATIVE DIRECTION

I wrote and developed all the concepts behind the production of Nilasphere UG and Slow Wave Sleep. Since three years I am into movies, games and several music and cross-media projects. *My Little Sister*, directed by R. and M. Del Piccolo, is my first work for full-length movies that received awarded.
