

VITALIY HARBOVSKIY

SUMMARY

I am Full Stack Web Developer - ASP.NET(Core) + Angular. On past projects I was leading the team of Developers and was fully responsible for architecture and communication with stakeholders to gather and decompose requirements of the project.

I am highly skilled in using modern tech stack as .NET Core and Angular 2+. I was migrating angular project from the older version to the latest, created complex backend logic in the highly loaded concurrent system.

Agile (Scrum, Kanban) process was fully implemented on my projects so I am skilled in team organization process.
