

DILEEP KURIYEDATH

(Senior web designer)

I am a senior web designer with 5 years of experience in creating and maintaining the websites. My experience comes with designing and front-end developing. As a designer, I already demonstrated my talents in creating the look, layout, and features of different websites also, I am a very responsible person has a great communication skill with my development teams and the managers for keeping the site-up-date and prioritizing needs, among other tasks. My services include making attractive and worthy web designs for a variety of clients across India. Over the 5 years of experience, I earned the ability to capture the client's vision, bring the design elements of life, and ultimately create a website that appeals to consumers. Currently, I am working in Corentive digital solutions, Kozhikode, and I have a great and very passionate team under me. They are very enthusiastic people and they are also ready to deliver any kind of work during their perspective time. Nithin babu is assisting me with Front-end developing and Abdul Farhan cooperates with us by web developing. It is very pleasure to create the stunning websites of Kozhikoden's, the very famous restaurant in Kozhikode, and the Kallat CGEN the builders and developers in Wayanad.

Work experience

1. Ibrid , Kozhikode
