

**MICROSOFT ACCESS
MIGRATION SERVICES**

Leverage our proven approach and dedicated staff

Schedule a Call

Dear Hiring Professional,

Please take a few minutes and read further as I've developed this niche consulting service for exactly the kind of problem your company faces, and I guarantee our unique value proposition is many times more attractive than hiring any single IT resource.

I myself started **programming in Microsoft Access** in 1992 and after 20 years in the IT field I realized that what was needed was a specialized professional consulting company dedicated to supporting **Microsoft Access** and providing the highest quality service on this rather quirky and brittle technology that delivers tremendous ROI.

1. **Dedicated Team** – Our senior US-based Microsoft Access consultants come with a combined knowledge exceeding 200+ years. We've seen every kind of quirky Microsoft Access bug, programmed the most complex business requirements imaginable and have subject matter expertise (SME) in every industry.
2. **Scalable / Elastic Workforce** – Support is provided remotely so there is no need to procure hardware, office space and no employment or HR headaches. We onboard fast and scale up or down to meet your needs.
3. **Proven Approach** – we follow professional software development standards and best practices *specific* to Microsoft Access which allow us to support, enhance and successfully migrate Microsoft Access database applications to more robust technologies, and even to the cloud when the time comes.
4. **Superior Tools** – Having serviced over 800+ clients in the past 9 years, we've developed a mature toolbox of **Microsoft Access** utilities which provide programmatic automation of many repetitive tasks.
5. **Continuous Improvement** – With a large active nationwide client base, our team's brain trust is the most up to date source of current Microsoft Access solution patterns in the world. We solve issues fast!
6. Help4Access is the only **Microsoft Certified Gold Cloud Partner** in the world with a core competency of supporting the full lifecycle of Microsoft Access solutions. Microsoft Corporation refers their most challenging clients to us. See *Albertson 65,000 MS Access case study*: <https://tinyurl.com/y7c6vh3f>

I would appreciate the opportunity to elaborate on the highlights presented above and provide you with further insights on how we can meet and exceed your immediate and long-term Microsoft Access support needs.

Kind regards,

Sasha Froyland – President / Enterprise Architect
