Hardiksinh Gohil
Solution Architect & Developer

Bhavnagar - India | (+91) 972-551-5577 | hardik.gohil@live.co.uk | www. linkedin.com/in/hardiksinh

Objective

My objective is to contribute to innovative global projects as a committed and dedicated professional, leveraging my expertise to deliver impactful solutions in a challenging and dynamic environment. I aim to collaborate with leading organizations to realize my potential, drive excellence through teamwork, and consistently deliver exceptional results. My goal is to utilize my skills to create value, inspire innovation, and contribute to advancements in technology and business on an international scale.

Technical Skills

- **Frameworks & Languages:** Blazor, ASP.NET Core, ML.NET, MVC, Angular, C#, JavaScript, Typescript
- **Databases:** MSSQL, PostgreSQL, MongoDB, CosmosDB
- **Azure:** AD, Entra, Function, Blob, File, Key Vault, ML
- **Architectures & Patterns:** Microservices, CQRS Pattern, Mediator Pattern, Repository Pattern
- **Frontend Technologies**: Bootstrap, jQuery, Telerik Kendo UI, Rad Controls

Experience

Over 12 years of experience in designing and developing SaaS applications across diverse domains

SOLUTION ARCHITECT | EMPOWERID | JAN 2023 – AUG 2024

Led the design and implementation of a scalable Identity and Access Management (IAM) platform for enterprises, focusing on automation and compliance. Delivered modular solutions using .NET Core, Microservices, and Angular, integrating with enterprise applications and cloud services. Spearheaded architecture optimization, API development, and deployment strategies, ensuring security, performance, and user-centric design. Collaborated with cross-functional teams to deliver innovative, client-driven solutions.

SOLUTION ARCHITECT & TEAM LEADER | AKANTIK | JAN 2023 – DEC 2023

Designed and led the development of a robust Production Management System (PMS) tailored for multiple industries, managing workflows from raw materials to product dispatch for over 250 users. Spearheaded architecture using ASP.NET Core, Angular, Microservices, Azure Services, RabbitMQ, and Service Bus. Directed a team of 25 developers, ensuring seamless deployment, comprehensive reporting, and scalability across diverse industrial environments.

SOLUTION ARCHITECT | SOCIAL27 | JUN 2020 – DEC 2022

Architected and led the development of a cutting-edge event management platform, supporting global clients like Microsoft, Tableau, and WHO. Directed a team of over 100 developers, delivering features for virtual events, networking, and data analytics using ASP.NET Core, Angular, Microservices, and Azure Services. Played a key role in ensuring compliance with GDPR and enhancing system scalability, performance, and user engagement. Collaborated with stakeholders to align solutions with client needs and industry standards.

SENIOR SOFTWARE DEVELOPER | SHAVIK AI | JAN 2018 – DEV 2020

At Shavik AI, I served as a **Team Leader and Solution Architect**, leading the development of **AgentPlus**, a cutting-edge SaaS application for the Australian real estate market, now known as **Kolmeo**. I was instrumental in designing and implementing a **CQRS pattern** with **microservices architecture** to ensure scalability and maintainability. The application featured a robust **Angular frontend**, seamlessly integrated with a highly efficient backend. I collaborated with cross-functional teams to deliver a solution that optimized property management workflows and enhanced user experience.

SENIOR SOFTWARE DEVELOPER | NORTHRAMP | JAN 2015 – NOV 2018
SOFTWARE DEVELOPER | MGI SOLUTIONS | MAR 2013 – NOV 2014
SOFTWARE DEVELOPER | CONNECT6 | NOV 2011 – MARCH 2013

Education

Master of Computer Application (MCA) from Saurashtra University

Bachelor of Business Administration (BBA) from Bhavnagar University

Abilities & Competencies

· Expertise in software design and architecture
· Proficiency in coding and programming languages
· Strong knowledge of microservices architecture
· Experience with cloud-based infrastructure
· Proficiency in performance tuning and optimization

· Ability to research and evaluate new software technologies and tools
· Strong leadership and mentorship skills
· Knowledge of Agile and Scrum methodologies

Achievements

- **Architected Scalable Systems:** Designed and implemented enterprise-grade systems, including real estate SaaS platforms like AgentPlus (Kolmeo) and Production Management Systems, leveraging **CQRS patterns**, **microservices**, and advanced cloud technologies like **Azure** for seamless scalability and maintainability.
- **Leadership in High-Impact Projects:** Led cross-functional teams of over 100 developers for platforms like **Social27** (serving clients like Microsoft and WHO) and **Akantik's Production Management System**, successfully delivering complex solutions for global industries while enhancing operational efficiency for over large number of users.
- **Expertise in Diverse Domains and Technologies:** Delivered solutions across domains like real estate, event management, healthcare, e-commerce, and ERP systems, utilizing modern frameworks (**ASP.NET Core**, **Blazor**, **Angular**) and cloud services (**Azure Cognitive Services**, **Azure Service Bus**) to create user-centric and high-performance applications.

I hereby declare that the details furnished above are correct to the best of my knowledge.
