EXPERIENCE

E-weblabs, Gurgaon — *Web Developer*

July 2016 - September 2017

It was my learning stage there. I worked on Core PHP , Web designing and database Management with our website there,with some Javascript:).

Shadow Technology, Gurgaon — *Web Developer & Hybrid app developer*

October 2017 - Present

I Worked on Codeigniter , Zend and core PHP as well but later i built some application in ionic framework using Angular 4 , Typescript which was new that time for me. I also worked on some leading website like videodoctor.net. Some time designing part of a website was my responsibility. So i learned a lot and worked a lot new things in current company. (Appreciate)
