Skype ID: labib.jamal1

Summary

I specialize in XHTML, HTML, HTML5, CSS2, CSS3, HAML, SASS, LESS, Twitter Bootstrap framework, Vue.js, Rect.js, Hubspot, jQuery Mobile framework, foundation version 2 framework, Wordpress, jQuery JavaScript library, HTML email newsletters, landing pages design + html and responsive design. All my code is hand-crafted and meets current best practices. I have also experience in the front-end side(html, css) part of ionic framework. I use the GIT tool for code versioning. I also have an idea how to initiate Node.js via command prompt and setup base structure for ionic base web app for creating layout. I am having experience working with NextJS.
