"Is this the best you can do?"

Yunlai Che

Senior fullstack developer

About

Che Yunlai is a senior web and mobile app developer with many years of track record. Creativity is very important to Yunlai, and he has been wanting to work in an environment where he can innovate and find his own solutions to challenges. So far, he loves to break challenges and like the idea of contributing to someone else's development. Yunlai is ready for the challenges!

Education

Northeastern University (CN)

2011/04 - 2015/03 **Bachelor's degree, Computer Science**

Experience

Full-stack developer

Cyberfuze (2020/06 - Now)

As a full-stack developer, I handled many projects here in this company. Backend, frontend, mobile app development, I've been involved in all things. My tech-stacks involved in are React, Next, Node, Nest, Ruby on Rails, Laravel, React Native, and Apollo Graphql.

Full-stack developer

ZayZoon (2020/04 - 2021/09)

My role in this company was a full-stack developer and I was in charge of all developments in this company like web, mobile app, and engine. I was involved in Ruby on Rails, Python, React, ReactNative, ReasonML, ReasonReact, and OCaml.

Freelancing

Freelancer, Guru, Upwork (2018/08 - 2020/05)

I worked as a freelancer at freelancer.com, guru.com and upwork.com. During this time, I could improve my expertise in web & mobile app development and I had got enough experience in various roles and technical departments.

Full-stack developer

Lynn Digital LLC (2016/12 - 2018/6)

My role in this company was a full-stack developer. I was involved in Laravel, Ruby, Ruby on Rails, NPM package development, Ruby Gem development, Canvas, etc. We started working in early December for a client project company needed some assistance with but it's grown into a long-term relationship.
