Expertise

Project Details

Project Title	**Zoolafix (https://www.zoolafix.com)**
Platform	Ruby, Ruby on Rails, JQuery UI, Couboy, Rackchache, Erlang, Bootstrap, CSS Project
Role	Programmer
Description:	Launched from London in December 2014, Zoola Fix is a community marketplace connecting local partygoers (called Fixers) with guests wanting authentic nightlife experiences.
	Fixers enable guests to party like locals by designing and leading them on tailor-made nights out. Whether it's dancing for hours at the biggest warehouse parties or rubbing shoulders with high society at the most exclusive members' clubs, there's a Fixer for everyone.
