

## Prem Murmu Sitecore Developer/Consultant

Sitecore 9.0 and Microsoft Azure Developer Certified Developer. I have 5.8 years of Experience in Sitecore and a total 7.3 years. I have mostly worked on Sitecore CMS, asp.net MVC and React and Nextjs projects in my career.

Roles	<ul style="list-style-type: none"> <li>● Sitecore Developer</li> <li>● Asp.net Developer</li> <li>● Sitecore SXA Developer</li> <li>● Sitecore Headless Developer</li> </ul>
Solutions	<ul style="list-style-type: none"> <li>● Sitecore CMS Development</li> <li>● Sitecore JSS</li> <li>● Sitecore SXA</li> <li>● Sitecore Headless(react and Next js) Development</li> <li>● Sitecore XM Cloud Development</li> <li>● Sitecore Upgrade</li> <li>● Microservice based Asp.net Core</li> <li>● Asp.net MVC Projects.</li> <li>● SharePoint Projects</li> <li>● Wordpress Headless</li> <li>● Wordpress and Woocommerce project developments</li> </ul>
Industries	<ul style="list-style-type: none"> <li>● Healthcare</li> <li>● Finance</li> <li>● Educational</li> <li>● Commerce</li> </ul>
Technologies	<ul style="list-style-type: none"> <li>● C#, ASP.NET MVC, Asp.Net Core 5, Asp.net API, Entity framework, LINQ</li> <li>● Sitecore 8.2/9.0/9.0.2/9.1/9.3/10/10.3, TDS, Sitecore Powershell, Sitecore SXA, Sitecore JSS, Sitecore JSS-SXA, Unicorn, TDS, Glass Mapper</li> <li>● Html 5, JQuery, JavaScript, Bootstrap</li> <li>● Azure, Docker, Kubernetes, MicroServices, Azure Devops</li> <li>● Reactjs, NextJs, Typescript</li> <li>● Rest API, GraphQL</li> <li>● Wordpress</li> </ul>

### Key Engagements

Sitecore CMS	I worked as the Sitecore Consultant to create and support websites and applications.
Micro-service	I worked as the asp.net core Consultant to create asp.net core micro-service based projects.
Asp.net Projects	I worked as the asp.net consultant for asp.net, asp.net core & mvc projects.
Wordpress	I worked on the wordpress websites, ecommerce, headless websites projects
Frontend Frameworks	I have worked on Angularjs, Reactjs and Nextjs with above technologies projects.
Deployments	I worked on manual, git, docker kubernetes to deploy services and also azure devops.

Educations	Professional Training/Certifications
IIMT Engineering College	<ul style="list-style-type: none"> <li>● Sitecore 9.0 Developer Certified Developer</li> </ul>

Prem Murmu  
Sitecore Developer/Consultant

B.Tech(CSE) 2016	<ul style="list-style-type: none"><li>● Microsoft Azure Developer Certified Developer</li><li>● Sitecore CMS Development Training Completion</li><li>● Asp.Net Core Training Completion</li><li>● Micros Service Training Completion</li></ul>
------------------	--

**PROFESSIONAL EXPERIENCE:**

**Project Name: IBE** **May2023**

<b>Type</b>	Development/Support
<b>Role</b>	Senior Sitecore Consultant
<b>Platform</b>	Windows 10, Visual Studio 2022
<b>Technology/Software</b>	Sitecore 10.3, Sitecore JSS-SXA, Sitecore CLI, Nextjs, Typescript, tailwind, storybook, docker
<b>Client</b>	DrafetQ

**Description:**

It is an airline portal project. We are building this project in XM Cloud with JSS-SXA.

**Responsibilities:**

- I setup Sitecore XM Cloud project in local and XM Cloud portal.
- I delivered the client the XM Cloud structure and Nextjs project setups
- Created next JS components, added as Json rendering control in sitecore
- Created sitecore templates for components.
- Adding custom rendering component to the Sitecore sxa tool box.
- Using existing rendering variant for component developments.
- Daily Scrum
- Fixing website bugs reported by QA Team.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.
- Used Azure DevOps to upper environments.

**Project Name: Heart.org** **April2023**

<b>Type</b>	Development/Support
<b>Role</b>	Senior Sitecore Consultant
<b>Platform</b>	Windows 10, Visual Studio 2022
<b>Technology/Software</b>	Sitecore 9.3, Sitecore MVC,Vuejs, Javacript, lighthouse,
<b>Client</b>	<b>Heart.org</b>

**Description:**

Heart.org healthcare was medical domain project. It was Page load &SEO improvement projects

**Responsibilities:**

- Analyzed page load and worked on optimizing rendering components
- I used Sitecore debug tool the see the components load and performance.
- I optimized home page model pop and removed lazy vue js from it.
- I optimized some components to load them fast in home page.
- I applied proper caching into rendering controls as required.
- I applied proper preload/delay into css, js.
- I used lighthouse and GTMatrix tool page load and performance

Prem Murmu  
Sitecore Developer/Consultant

- I optimized all the images and converted to webp format.
- I worked closely with team member
- Daily Scrum
- Fixing website bugs reported by QA Team.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.
- Used Azure Devops to upper environments.

**Project Name: TropExpression**

**March2023**

<b>Type</b>	Development/Support
<b>Role</b>	Senior Sitecore Consultant
<b>Platform</b>	Windows 10, Visual Studio 2022
<b>Technology/Software</b>	Sitecore 10.3, Sitecore JSS, Sitecore CLI, Javascript, JQuery, Gulpjs,
<b>Client</b>	<b>Cignex</b>

**Description:**

Trop2expression healthcare was medical domain project. We built it in Sitecore SXA.

**Responsibilities:**

- Designing Templates, Creating rendering components.
- Creating and Editing rendering variant according to project use.
- Creating pages and putting data to its Data sources.
- Used Scriban template for some of the components.
- Creating partials and page design for common used components.
- Created theme using Sitecore cli.
- Deploying theme and styles and JS changes.
- Making every page Editable in Sitecore.
- I reviewed some mobile rendering components and fixed.
- I worked closely with team member
- Daily Scrum
- Fixing website bugs reported by QA Team.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.
- Used manual deployment process to upper environments.

**Project Name: Safeguide**

**fab2023- april 2023**

<b>Type</b>	Development/Support
<b>Role</b>	Senior Sitecore Consultant
<b>Platform</b>	Windows 10, Visual Studio 2022
<b>Technology/Software</b>	Sitecore 10.1, Sitecore JSS, Sitecore CLI, Asp.Net MVC, Javascript, JQuery, Gulp
<b>Client</b>	<b>Cignex</b>

**Description:**

Safeguide healthcare was medical domain project. We built it in Sitecore SXA. It was multilingual website.

**Responsibilities:**

- Designing Templates, Creating rendering components.
- Creating and Editing rendering variant.
- Creating pages and putting data to its datasources.

Prem Murmu  
Sitecore Developer/Consultant

- Creating multilingual pages and items.
- Used Scriban template for some of the components.
- Creating partials and page design for common used components.
- Created custom zip files download functionality to download the multiples.
- Created theme using Sitecore cli.
- Deploying theme and styles and js changes.
- Making every page Editable in Sitecore.
- I reviewed some mobile rendering components and fixed.
- I worked closely with team member
- Daily Scrum
- Fixing website bugs reported by QA Team.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.
- Used manual deployment process to upper environments.

**Project Name: OSF Healthcare**

**Oct2022- Dec 2022**

<b>Type</b>	Development/Support
<b>Role</b>	Senior Sitecore Consultant
<b>Platform</b>	Windows 10, Visual Studio 2022
<b>Technology/Software</b>	Sitecore 10.1, Sitecore JSS, Sitecore CLI, Nextjs, Typescript Tailwind
<b>Client</b>	<b>OSF Healthcare</b>

**Description:**

Osf healthcare was medical domain project. We built it in Sitecore Jss.

**Responsibilities:**

- Designing Templates, Creating rendering components.
- Creating Nextjs component and Json rendering in Sitecore.
- Taking update from azure Devops, running Sitecore CLI to serialize/deserialize items.
- Making every page Editable in Sitecore.
- I reviewed some mobile rendering components and fixed.
- Commit/Merge branches new changes to azure Devops.
- Creating new tickets for issue logging in azure board.
- I worked closely with team member
- Daily Scrum
- Fixing website bugs reported by QA Team.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.
- Used azure git repo versioning tool
- Azure Devops deployment.

**Project Name: IDinHf**

**July2021- Sept2022**

<b>Type</b>	Development/Support
<b>Role</b>	Senior Sitecore Consultant
<b>Platform</b>	Windows 10, Visual Studio 2022
<b>Technology/Software</b>	Sitecore 10.1, Sitecore SXA, MVC5.0, JQuery, TDS, Glass mapper, C#
<b>Client</b>	IDinHf

**Description:**

IDinHf is micro website on iron deficiency, explaining causes, symptoms and treatment of iron deficiency. It is one of product of daiichi.

**Responsibilities:**

- Designing Templates, Creating renderings Variants and rendering components.
- Created the theme, configured gulp building and deploying.
- Making every page Editable in Sitecore.
- I wrote jquery for few functionalit.
- Implemented basic SEO tagging and Google analytics events.
- I added styles and made few custom rendering components.
- I worked closely with team member
- Updated new content into whole website
- Fixing website bugs reported by QA Team.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.
- Used SVN versioning tool
- Manual deployment procedure.

**Project Name: Her2lowhcp**

**May2021- June2022**

<b>Type</b>	Development/Support
<b>Role</b>	Senior Sitecore Consultant
<b>Platform</b>	Windows 10, Visual Studio 2019
<b>Technology/Software</b>	Sitecore 9.1, MVC5.0, TDS, Glass mapper, Visual Studio 2019, C#
<b>Client</b>	<b>Her2lowhcp</b>

**Description:**

Her2lowhcp is micro website on her2low breast cancer, explaining causes, symtoms and treatment of breat cancer. It is one of product of daiichi.

**Responsibilities:**

- Designing Templates, Creating renderings.
- Developing the web pages and the business logic.
- Making every page Editable in Sitecore.
- Implemented form to save user data to Sitecore and External DB and Its validations.
- Implemented basic SEO tagging and Google analytics events.
- Updated new content into whole website
- Fixing website bugs reported by QA Team.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.
- Used SVN versioning tool
- Manual deployment procedure.

**Project Name: IMF**

**Dec2021- April2022**

<b>Type</b>	Development/Support
<b>Role</b>	Senior Sitecore Consultant
<b>Platform</b>	Windows 10, Visual Studio 2019
<b>Technology/Software</b>	Sitecore 9.3, MVC5.0, TDS, Glass mapper, Visual Studio 2019, C#
<b>Client</b>	IMF.org

**Description:**

Prem Murmu  
Sitecore Developer/Consultant

The International Monetary Fund (IMF) works to achieve sustainable growth and prosperity for all of its 190 member countries.

**Responsibilities:**

- Making editable rendering component.
- Used branch template to create blogging article page structure.
- Made sure rendering component XP Editor friendly.
- Implemented the articles search functionality and filters articles using author name.
- Pushing component code or task to ADO board.
- Used Sitecore powershell script to put content into article items.
- Designing Templates, Creating Generic modules and Development.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.

**Project Name: Gems**

**August 2021 - December 2021**

<b>Type</b>	Development/Support
<b>Role</b>	Senior Sitecore Consultant
<b>Platform</b>	Windows 10, Visual Studio 2019
<b>Technology/Software</b>	Sitecore 8.1, MVC5.0, Unicorn, Glass mapper, Visual Studio 2019, C#
<b>Client</b>	Gems Africa

**Description:**

Gems Africa government is healthcare service provider.

**Responsibilities:**

- Implemented the model popup functionality in Sitecore.
- Created a page with solr search implementation.
- Exposed the some sitecore items using item service and Ajax call.
- Sitecore powershell used to feed data to Sitecore.
- Modified the existing pipeline to disable to cors policy to api access in sitecore
- Designing Templates, Creating Generic modules and Development.
- Developing the web pages and the business logic.
- Override some pipeline to suit our functionality.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.

**Project Name: Collabera**

**June 2021 - July 2021**

<b>Type</b>	Development/Support
<b>Role</b>	Software engineer
<b>Platform</b>	Windows 10
<b>Technology/Software</b>	Asp.net core, Microservices, angular 12, Azure Devops, Visual Studio 2019, C#, Ms Sql Server 2019, Docker, Kubernetes.
<b>Client</b>	Collabera

**Description:**

Collabera

**Responsibilities:**

- Creating Microservice Api and consuming in angular 12.
- Pushing microservice to docker and deploy docker images to kubernetes cluster.
- Creating tables and stored procedures for apis.
- Worked on databases and stored procedure to fix bugs.
- Deployment and troubleshooting.

**Project Name: Unicef**

**April2021 - May2021**

<b>Type</b>	Development/Support
<b>Role</b>	Software engineer
<b>Platform</b>	Windows 10
<b>Technology/Software</b>	Asp.net Mvc, Angular 4, Sharepoint, Azure Devops, Visual Studio 2019, C#, Ms Sql Server 2017
<b>Client</b>	Unicef

**Description:**

Unicef

**Responsibilities:**

- Creating Api and consuming in angular 4.
- Bug fixing.
- Updating my tasks in azure dev ops and attending scrum call and discuss issues.
- Creating tables and stored procedure comment box implementation.
- More worked on databases and stored procedure to fix bugs.
- Deployment and troubleshooting.

**Project Name: GCTPatient**

**Feb2021 - April 2021**

<b>Type</b>	Development
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows 10
<b>Technology/Software</b>	Sitecore 9.1, Sitecore MVC, TDS, Glass mapper, Visual Studio 2019, C#, Ms Sql Server 2017
<b>Client</b>	GCTPatient

**Description:**

This project is from the GCTPatient is a global pharmaceutical company and the second-largest pharmaceutical company in Japan. Website is about Tenosynovial giant cell tumor (TGCT) Includes giant cell tumor of the tendon sheath (GCT-TS) and pigmented villonodular synovitis (PVNS)7,8.

**Responsibilities:**

- Designing Templates, Creating Generic modules and Development.
- Developing the web pages and the business logic.
- Making every page Editable in Sitecore.
- Override some pipeline to suit our functionality.
- Implemented functionality to save contact us form data to sitecore user profile, send confirmation mail and at same time save form data to custom database.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.

**Project Name: GCTHCP**

**Datamatics**

**Nov2020 - March2021**

<b>Type</b>	Development
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows 10, Visual Studio 2019
<b>Technology/Software</b>	Sitecore 9.1, MVC5.0, TDS, Glass mapper, Visual Studio 2019, C#
<b>Client</b>	TGCTHCP

Prem Murmu  
Sitecore Developer/Consultant

**Description:**

This project is from the TGCTHCP is a global pharmaceutical company and the second-largest pharmaceutical company in Japan. Website is about Tenosynovial giant cell tumor (TGCT) Includes giant cell tumor of the tendon sheath (GCT-TS) and pigmented villonodular synovitis (PVNS)7,8.

**Responsibilities:**

- Designing Templates, Creating Generic modules and Development.
- Developing the web pages and the business logic.
- Making every page Editable in Sitecore.
- Override some pipeline to suit our functionality.
- Implemented functionality to save contact us form data to sitecore user profile, send confirmation mail and at same time save form data to custom database.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.

**Project Name: LixianaHCP** **Datamatics** **July2020 - Oct 2020**

<b>Type</b>	Development
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows 10, Visual Studio 2019
<b>Technology/Software</b>	Sitecore 9.1, MVC5.0, TDS, Glass mapper, Visual Studio 2019, C#,
<b>Client</b>	LixianaHCP.

**Description:**

This project is from the LixianaHCP is a global pharmaceutical company and the second-largest pharmaceutical company in Japan. Website is about tPrevention of stroke and systemic embolism in adult patients with nonvalvular atrial fibrillation (NVAf) with one or more risk factors, such as congestive heart failure, hypertension, age ≥75 years, diabetes mellitus, prior stroke or transient ischaemic attack (TIA).

**Responsibilities:**

- Designing Templates, Creating Generic modules and Development.
- Developing the web pages and the business logic.
- Making every page Editable in Sitecore.
- Override some pipeline to suit our functionality.
- Implemented external complete login (authentication and authorization) functionality to website
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.

**Project Name: TuralioHCP** **Fab 2020 - June 2020**

<b>Type</b>	Development
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows 10, Visual Studio 2017
<b>Technology/Software</b>	Sitecore 9.1, MVC5.0, TDS, Glass mapper, Visual Studio 2017, C#,
<b>Client</b>	TuralioHCP.

**Description:**

This project is from the TuralioHCP is a global pharmaceutical company and the second-largest pharmaceutical company in Japan. Website is about Tenosynovial giant cell tumor (TGCT) is a type of typically benign tumor occurring in or around a joint. It can reduce movement in the affected joint and cause pain or stiffness.

**Responsibilities:**

- Designing Templates, Creating Generic modules and Development.
- Developing the web pages and the business logic.
- Making every page Editable in Sitecore.
- Override some pipeline to suit our functionality.

Prem Murmu  
Sitecore Developer/Consultant

- Creating documentation for the functionality developed.
- Deployment and troubleshooting.

**Amlmutations (AML)**

**Nov 2019 - Feb2020**

<b>Type</b>	Development
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows 10, Visual Studio 2017
<b>Technology/Software</b>	Sitecore9.1, MVC5.0, TDS, Glass mapper, Visual Studio 2017, C#,
<b>Client</b>	Amlmutations (AML)

**Description:**

This project is from the Amlmutations (AML) is a global pharmaceutical company and the second-largest pharmaceutical company in Japan. Website is about AML Mutations treatment and research for patients.

**Responsibilities:**

- Designing Templates, Creating Generic modules and Development.
- Developing the web pages and the business logic.
- Implemented google graph on website.
- Made every page Editable in Sitecore.
- Override some pipeline to suit our functionality.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.

**ManappuramGroup (MAFIL)**

**April 2019 - Oct 2019**

<b>Type</b>	Development
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows 10, visual Studio 2017
<b>Technology/Software</b>	Sitecore9.0.2, MVC5.0, TDS, Glass mapper, Visual Studio 2017, C#,
<b>Client</b>	Manappuram finance limited.

**Description:**

This project is from the Manappuram finance limited, It is about to show and maintain the all their finance subsidiaries, loan schemes.

**Responsibilities:**

- Designing Templates, Creating Generic modules and Development.
- Implemented the azure search in project.
- Developing the web pages and the business logic.
- Implemented the work flow.
- Made every page Editable in Sitecore.
- Override the some pipeline to suit our functionality.
- Creating documentation for the functionality developed.
- Deployment and troubleshooting.

**Dentons**

**Dec 2019 – Mar 2019**

<b>Type</b>	Development /Migration
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows10 , Visual Studio 2015
<b>Technology/Software</b>	Sitecore8.2, MVC5.0, Visual Studio 2015, C#,
<b>Client</b>	Dentons

Prem Murmu  
Sitecore Developer/Consultant

**Description:**

Dentons is the world's largest law firm, delivering quality and value to clients around the globe. - Created RSS feed links for some blogs and Newsletters.
- Worked in autosuggestion of the global search.
- More bug fixings in this project.
- After commit changes, use to report our project tech lead and Quality tester.
- Deployment and troubleshooting.

**Studiesaboard.com**

**Jul 2018 – Dec 2018**

<b>Type</b>	Development / Migration
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows10 ,Visual Studio 2017
<b>Technology/Software</b>	Sitecore 9.0, MVC5.0, TDS, Glass mapper, Visual Studio 2017, C#, SXA, Sitecore PowerShell
<b>Client</b>	Studiesaboard.com

**Description:**

ISA offers high-quality education abroad programming in Africa, Asia, Europe, Latin America, and the Pacific, providing a range of study, internship and service-learning opportunities.

**Responsibilities:**

- Implemented the Sitecore PowerShell ISE module in the project.
- Integrated third party module Gather content in this project to pull or map some data.
- Used Sitecore PowerShell in this project for content putting automation or quick content feeding.
- Wrote PowerShell script for data or items creations, Updates and Deletion.
- Worked in a SXA to create SXA popup components of Program inclusions.
- Use Helix Structure for Development.
- Used Glass Mapper orm.
- Deployment and troubleshooting.

**BTLaw**

**May 2018 – July 2018**

<b>Type</b>	Development
<b>Role</b>	Sitecor Developer
<b>Platform</b>	Windows10 ,Visual Studio 2015
<b>Technology/Software</b>	Sitecore9.0, MVC5.0, TDS, Glass mapper, Visual Studio 2015, C#,
<b>Client</b>	Unwomen

**Description:**

This project related to the law organization in USA.

**Responsibilities:**

- Worked in bio profile for every staffs in this project.
- Created template fields, created item and rendered the bio component on home page.
- Use Helix Structure for Development.

Prem Murmu  
Sitecore Developer/Consultant

- Developing the web pages and the business logic.
- Used TDS for continuous mapping of template fields with vs solutions..
- Created the city list component for home page.
- Created the v-card for all bio.
- Used Git source control.
- After commit changes, use to report our project tech lead and Quality tester.

**QNET** **Jan 2018 – Apr 2018**

<b>Type</b>	Development / Training
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows 10, Visual studio 2015
<b>Technology/Software</b>	Sitecore8.1, MVC5.0, Visual Studio 2015, C#,
<b>Client</b>	QNET

**Description:**

QNET is a dynamic wellness and lifestyle company that enriches the lives of its customers worldwide. QNET is a direct selling company that deals in personal care products, skin care products, health and nutrition products and much more!

**Responsibilities:**

- Creating template and rendering
- Form Validations as per Websites and country.
- Sitecore serialization& Deserialization by creating package and installing package
- Created templates and rendering component of tooltips for Forms.
- Created custom field type.
- More bugs fixes.
- After commit changes, use to report our project tech lead and Quality tester.
- Create Json file importer utility.
- Used vsts and tfs for deployment.

**BTLaw** **May 2018 – July 2018**

<b>Type</b>	Development
<b>Role</b>	Sitecor Developer
<b>Platform</b>	Windows10 ,Visual Studio 2015
<b>Technology/Software</b>	Sitecore9.0, MVC5.0, TDS, Glass mapper, Visual Studio 2015, C#,
<b>Client</b>	

**Description:**

This project related to the law organization in USA.

**Responsibilities:**

- Worked in bio profile for every staffs in this project.
- Created template fields, created item and rendered the bio component on home page.
- Use Helix Structure for Development.
- Developing the web pages and the business logic.
- Used TDS for continuous mapping of template fields with vs solutions..
- Created the city list component for home page.
- Created the v-card for all bio.
- Used Git source control.
- After commit changes, use to report our project tech lead and Quality tester.

**QNET** **Jan 2018 – Apr 2018**

Prem Murmu  
Sitecore Developer/Consultant

<b>Type</b>	Development / Training
<b>Role</b>	Sitecore Developer
<b>Platform</b>	Windows 10, Visual studio 2015
<b>Technology/Software</b>	Sitecore8.1, MVC5.0, Visual Studio 2015, C#,
<b>Client</b>	QNET

**Description:**

QNET is a dynamic wellness and lifestyle company that enriches the lives of its customers worldwide. QNET is a direct selling company that deals in personal care products, skin care products, health and nutrition products and much more!

**Responsibilities:**

- Creating template and rendering
- Form Validations as per Websites and country.
- Sitecore serialization& Deserialization by creating package and installing package
- Created templates and rendering component of tooltips for Forms.
- Created custom field type.
- More bugs fixes.
- After commit changes, use to report our project tech lead and Quality tester.
- Create JSON file importer utility.
- Used VSTS and TFS for deployment.

**DataAlign**

**July 2017 – Nov 2017**

<b>Type</b>	Development
<b>Role</b>	.Net Developer
<b>Platform</b>	Windows 8, Visual studio 2013
<b>Technology/Software</b>	Asp.Net MVC5.0, Visual Studio 2013, C#, Web Api, Ado.Net Entity framework.
<b>Client</b>	In house project

**Description:**

DataAlign is for online tech Support and cloud backup service

**Responsibilities:**

- Created some pages for this project.
- I worked with team lead to implement the payment gateway.
- Worked on the create tables for the project.
- Feed data in Database using PowerShell (I didn't write it).
- Made the contact us page and form submission.
- Implemented the Map in Project.
- Use to report our tech lead and Quality tester.
- Learned to deploy the website in IIS Sever.

**Mcare Health**

**Jan 2017 – July 2017**

<b>Type</b>	Development / Training
<b>Role</b>	Trainee .Net Developer
<b>Platform</b>	Windows8, Visual studio 2013
<b>Technology/Software</b>	Asp.Net MVC5.0, Visual Studio 2013, C#, Web Api, Ado.net Entity framework.
<b>Client</b>	Mcare health

**Description:**

Prem Murmu  
Sitecore Developer/Consultant

It is the project, I worked in the company. There are three mainly modules in this software. Doctors, CC (Nurses) and Patients. It is software for hospitals, its staffs and patients. It is very useful for patients as well hospitals staffs for better service and nursing in hospitals.

**Responsibilities:**

- Created some tables in database.
- Update some data in database tables.
