RECENT RELEVANT EXPERIENCE

SUMMAY INC
Senior Full Stack Engineer | June 2019 – January 2020
Developing Mobile Apps in a React-Native environment where key accountabilities include:
- Creation of new API powered by GraphQL.
- Development and deployment of API for mobile app.
- Creating CI/CD for launch in AWS.

ISOTOPE INC
React Native Developer | November 2019 – December 2019
A patent pending Event ticketing platform where I successfully
- Designed and developed a mobile app for their breakout Venue Ticketing product.
- Developing and deploying platform processes in Fastlane and CodePush environments.
- Guided production; staging versions

ISOTOPE INC
Senior Full Stack Engineer | September 2018 – March 2019
Spearheading the development team I guided production, beta version development and in addition to:
- Redesigning the Isotope Ticketing platform from MeteorJS to separate Client (CRA based) and API based on Express and GraphQL Yoga.
- Creating high-performing and self-descriptive code, supported with TypeScript & TSLint with a front-end Atomic based, modular architecture.
- Configuring managed staging and production environments hosted in AWS.
- Mentored and supported the development team to effectively deploy the app; manipulating the underlying code when required.

Aldobec Technologies / EUROWAG
Senior Full Stack Engineer | May 2018 – June 2019
The fastest growing integrated mobility provider in Europe providing a suite of fuel and toll payments, tax refund, fleet management solution to transport and logistics clients provisioning vehicles across Europe, Asia and the Middle East.
- Led development of user facing front-ends.
- Development and creation of several APIs

GETVISION S.R.O
Senior Full Stack Engineer | May 2016 – September 2017
Created custom web solutions and prototypes using services on demand, with a focus on UI Design. Accountabilities included:

- As a Leading Full-stack developer created on-demand custom web apps by new, returning and existing customers.
- Led quality assurance initiatives and ongoing testing.

PRIOR: Slovak Academy of Sciences | ProjektXCAPE | IT Learning

EDUCATION
- High School of Scenic Art | Animator 2D/3D | 2013
- High School of Printing | Graphics Designer for Digital Media | 2012
