Lead FrontEnd Developer
Relevant Software

Jan 2017 - Jan 2019 (2 years 1 month)
The usability and loading time of the existing application was the reason to rewrite the application and migrate existing functionalities into a new form using ReactJS technologies.

• Successfully migrated the application from AngularJS framework to ReactJS library by dividing the initial app into smaller parts and replacing one part at a time;
• Implemented 70% of the new features that the client needed and backed them by 95% coverage of unit tests.

Skills used: ReactJS, ReactContext, Javascript, React Bootstrap, Jest, Cypress.

FULL STACK JAVASCRIPT DEVELOPER
Scopic Software

Sep 2016 - Nov 2016 (3 months)
Building a financial mobile application for iOS and Android built using React, Redux, React Native and Typescript.

Other technologies: ES7, ESLint, REST.
Tools: Visual Studio Code. Git, GitHub Enterprise, Jira Agile, XCode, Mac OS, Android Studio, React DevTools, Redux DevTools

JAVASCRIPT DEVELOPER
Nomura Holdings

Jun 2013 - Nov 2015 (2 years 6 months)
The customer requested to display the real price and detailed costs for foreign exchange transactions on every marketplace price change, to update buy and sell price depending on pips changes and MIFID II license approval required by financial institutions.

• Customer satisfaction and daily transactions rate improved with 10% by implementing a GM Cost module that displays costs for each foreign exchange transaction considering buy/sell market price and pips updates;
• Helped to achieve MIFID-II license by implementing financial regulators rules imposed after the 2008-2009 financial crisis.

Skills used: Javascript, ReactJS, WebSockets, Jest, Enzyme.

Education

University of Bucharest
Bachelor's degree, Computer Software Technology/Technician
2007 - 2011
