EXPERIENCE

VARY REAL TECHNOLOGIES | OWNER

2018 - Present

Vary Real has taught me a lot, I have learned about clients and expectations in regards to Time Management, and Quality Assurance. My daily work has also helped improve my keen eye for details. I also hire subcontractors sometimes which helped me push my Leadership and Communication skills to a new level.

BLUEDROP TRAINING & SIMULATION | 3D SPECIALIST

2015 - 2018

With Bluedrop I accomplished a lot, I was successfully able to lead a small team for a MHLH project nearing the end and under a tight deadline, I was also tasked with helping on Debugging issues with a new software, and also created some Press Release Video for the company, among many other tasks.

DEPARTMENT OF NATIONAL DEFENSE ALSC | 3D GENERALIST

2012 - 2013

While working at the DND, I was able to take part in many parts of the pipeline that I never had a chance to before; such as, Lead for a Project, Motion Capture, Unity VR Simulations, After Effects Compositing, and juggling up to five projects at once and get them all finished and passed in under deadline.

EDUCATION

NBCC (NEW BRUNSWICK COMMUNITY COLLEGE) | NB CANADA

2012 - 2013 | Advanced Arts Diploma

NBCC taught us a lot of things for business related information such as **Project Management**, and **Client Relations**.

CENTRE FOR ARTS AND TECHNOLOGY | NS CANADA

2009 - 2011 | 3D Animation & Game Animation

With this education I learned everything for **3D Modeling high and low poly** and **Animation, Lighting, Rigging, UV and Texture**, and more, please ask.
