Designation : Android Developer

Organization : Initio Techmedia

Company Url : <https://www.initiotechmedia.com/>

Duration : Nov - 2018 to Present

Designation : Mobile app architecture

PROJECT PROFILE

1) myPosterity™ - Family Forever

Role & Responsibility : R&D, Design, Development

Description : myPosterity is the place where your family records the stories behind your treasured family photos, heirlooms, recipes, and documents.

With our mobile app, it takes just minutes to save a story. Upload a family photo, recipe, or any other image that is meaningful to you. Next, record yourself or a loved one telling the story behind the image. You can record the story on video or with audio only. The app automatically combines your photo and story together to create a narrated photo. Then, invite family members to your hive to view your narrated photos and add their own! When your stories connect, a beautiful family narrative is created that will last for generations.
