

Susil Shah

Senior Front-End Developer

Susil.nitj@gmail.com | +977-9842463502 | Kathmandu, Nepal

Profile

Seasoned **Senior Front-End Developer** with 5+ years of experience designing, architecting, and delivering scalable web applications in **React, TypeScript, and modern JavaScript ecosystems**. Demonstrated expertise in building component-driven UIs, performance optimization, and leading frontend architecture for multi-domain projects across fintech, healthcare, logistics, and real estate. Collaborative leader passionate about clean code, modern UI frameworks, and delivering seamless user experiences.

Experience

Sajilo Ventures Pvt. Ltd. — Lead Front-End Developer

Jan 2023 – Present

Kathmandu, Nepal

- Lead frontend architecture and development for cross-industry web platforms (fintech, healthcare, real estate), improving performance and reusability.
- Built and maintained a scalable **React + TypeScript** component library with Ant Design and Styled-Components.
- Integrated secure **Stripe payment flows** and subscription management across multiple client projects.
- Collaborated with backend and design teams to ensure accessible, performant, and pixel-perfect UIs.
- Mentored developers through code reviews, refactoring sessions, and architecture discussions.

Key Platforms: Finyak (cross-border transfers), UKPA Property System, Kyama Vision (healthcare), HireEnumerator (HR platform), PropMap (Dubai property management).

FritsGo Pvt. Ltd. — Front-End Developer

Jan 2021 – Dec 2022

Kathmandu, Nepal

- Designed and implemented interactive dashboards and portals for logistics management (Admin & Merchant).
- Delivered dynamic UI components using **React, Redux, and Ant Design** to streamline order and delivery tracking.
- Improved data-fetching efficiency with React Query and API response caching, reducing load times.
- Collaborated directly with UX designers to ensure optimal usability and accessibility.

Key Platforms: FritsGo Admin Portal, FritsGo Merchant Portal (analytics, payments, delivery workflows).

Alpha Beta Theta Technologies Pvt. Ltd. — Front-End Developer

Jan 2020 – Dec 2020

Kathmandu, Nepal

- Built modular, reusable React components and page layouts for the internal Job Support Application.
- Implemented time tracking, mentorship hours, and invoice management features with **React + TypeScript**.
- Collaborated on system design and improved component performance via lazy loading and memoization.

Projects

Finyak — Cross-Border Remittance Platform

React, TypeScript, Stripe, Ant Design

Delivered a production-grade remittance platform enabling secure, compliant transfers with Stripe. Optimized API calls and reduced bundle size.

PropMap — Real Estate Platform (Dubai)

React, React Query, Styled-Components, Ant Design

UAE-based real estate platform enabling brokers and clients to explore off-plan and resale properties through an interactive map. Built responsive dashboards, listing filters, and catalog features similar to GenieMap for efficient property management and discovery.

HireEnumerator — Recruitment Platform

React, Redux, Ant Design

Built interactive job-matching flows and dashboard analytics for recruiters and candidates.

UKPA — Property Management Platform

React, TypeScript, Ant Design

A property management platform that enables landlords and agents to manage properties, tenants, tenancy agreements, rent payments, and maintenance tasks through a centralized online system. Contributed to redesigning and updating the application's UI skin for a modern, consistent user experience.

Kyama Vision — Eye Clinic Management Web Application

React, TypeScript, Ant Design

An eye clinic management web application designed to handle patient consultations, appointment scheduling, spectacle and contact lens prescriptions, and inventory management. Built using React, TypeScript, and Ant Design for efficient, responsive, and user-friendly clinical workflows.

FritsGo Admin & Merchant Portals

React, Redux, Material-UI

Created scalable dashboards managing orders, drivers, and payments for logistics partners.

Job Support Web Application

React, TypeScript, Ant Design

Built modular, reusable components and page layouts for tracking mentorship hours, time management, and invoice generation. Optimized performance via lazy loading and component memoization.

Education

National Institute of Technology (NIT), Punjab, India
Punjab, India CGPA: 6.3

B.Tech in Computer Science 2015 – 2019

Capital College and Research Center, Kathmandu, Nepal
Kathmandu, Nepal Percentage: 77%

+2 Science 2012 – 2014

Technical Skills

Core:	React, TypeScript, JavaScript (ES6+), HTML5, CSS3/SASS
UI/UX:	Ant Design, Material-UI, Styled-Components, Emotion, Figma integration
State / Data:	Redux, Context API, React Query, REST
Build / Tools:	Webpack, Vite, NPM, Git, GitLab, VS Code
Integration:	Stripe Payments, Authentication (JWT / OAuth), APIs
Practices:	Agile, Component Architecture, Code Reviews, CI/CD, Responsive Design
