

Hello, I'm Omambia aka The Pyther!

I'm a software engineer at nGeni IO a Tech Development Company in Nairobi, Kenya.

I'm working with the nGeni development team as the Senior full stack Developer

I'm a strong Engineering professional with a Bachelor focused in Software Engineering from Multimedia University of Kenya.

Before joining nGeni , I worked with Encomm Solutions as a full stack Developer. Here I developed many apps which are monolithic & micro-service architecture based, on the side i developed wakilishwa, Kenyan Advocates job posting market place.

I am a fan of web development, entrepreneurship, and programming. I'm also interested in volunteering and reading.
