Gumi
Japan

Gumi Japan

“A Content Production Company”

From production, development, strategic design to operation, with an emphasis on solving customer problems. We are a company that "visualizes" the customer's vision that leads to business growth and helps "solve problems".

gumi Vietnam

gumi Vietnam JSC, originated by gumi Japan (Ebisu, Japan), is a vibrant and fast growing IT company offering a suite of IT - related software services and creative digital content products. Incorporated since 2012 in Vietnam, we have established ourselves as a trusted and reliable long-term partner for many of our customers. Currently, gumi Vietnam main strength focuses on developing mobile applications, open source Web System and HTML5 programming. We are driven by our belief: " Seeking first to understand before being understood" . We know that knowing and understanding client needs is at the center of every successful business. If you are looking for a partner to enhance your business capabilities, gumi Vietnam is your ideal platform..
