Summary

A results-driven Scrum Master and Project Manager with a proven ability to lead cross-functional teams and drive project success. Experienced in implementing agile methodologies and fostering a collaborative work environment that promotes transparency, accountability, and continuous improvement.

I have successfully facilitated the adoption of agile principles and practices, enabling teams to embrace self-organization, continuous improvement, and effective delivery. I possess a deep understanding of the Scrum framework and its various ceremonies, including sprint planning, daily stand-ups, sprint reviews, and retrospectives. Through coaching and mentoring, I empower team members to enhance their skills, overcome challenges, and consistently deliver high-quality products.
