## SOFT SKILLS

## HARD SKILLS

## PROJECTS

### Water Saving Tap Attachment using Six Sigma Methodology.

This is final year project which integrated the Six sigma methodoly of Product development ie. DMAD. We created a product which allows and awares the user ofwater wastage.Its reduces the water wastage by 95% . There is no device which tell users about the optimum usage of water.

### Bister.com

Bister.com was an enterperneural project which we proposed, was the first ever dorm and hostel facilities for bachelors and students in lahore. Me and my team created a portal to connect hostel owners to the customers.

### Ludo.io

Ludo.io is the first ever traditional ludo game on Blockchain where gamers can earn rewards in the form of tokens and sell them to earn income while simultaneously buy and sell Ludo NFTs on the marketplace. Both providing security and governance of the funds on decentralised blockchain.

## STARTUPS

### Ammar's Grill

In 2018 I started a restaurant by the name of Ammar's Grill. It was successful startup. The restaurant specialty was Pakistani Food and BBQ Grill. I retained This business for 1.5 years with a healthy net profit of 1 lac per month. But eventually I got an opportunity to flip this business in return of handsome capital.

### **Five Star Hostels**

In 2019 I started another startup by the name of Five-star Hostels. We provided best in class hostel facilities right in front the university I studied in (UMT, Lahore). We provided rooms to over 100 students both national and international. Five star is currently in business and is growing exponentially in terms of net profit with over 200+ satisfied students.
