Git hub

PROFILE

I am a full stack web developer with expertise in front-end (HTML, CSS, JavaScript, React, Angular) and back-end (Node.js, Python, PHP, MongoDB, MySQL, PostgreSQL) development. I focus on clean code, agile methodologies, and collaboration, aiming to deliver high-quality solutions. My passion lies in creating seamless user experiences and bringing ideas to life through coding.

EXPERIENCE

Procohat   **2022**

Full stack Developer

The company on Saas pass is known for innovation, customer focus, and a diverse team. Their platform streamlines operations for businesses, emphasizing ease of use and robust features. They prioritize sustainability and community engagement through tech workshops and conservation projects. The company continues to innovate and set standards in the SaaS industry.

Immvers Ai   **2022**

Backend Developer

The company is advancing technology with innovative AI solutions and research. Their team focuses on ethical AI practices to benefit humanity, making a significant impact across various sectors like business, healthcare, and scientific advancements.
