

MICHELLE THOMPSON

This Gals Design and Development

This Gal's Design is a boutique design and development agency that specializes in creative, custom solutions for businesses. We focus on unique, stylish and usable experiences across multiple mediums and devices. We also provide partnering and outsourcing for companies wishing to add design and web development solutions to their portfolio of services.

With over 20 years in business, we pride ourselves on creating clean and functional user experiences. We help build brands that not only have a unique identity, but a strong sense of purpose and encourage customer interaction. We handle the full stack and develop everything from websites using a CMS like WordPress, to completely custom CMS solutions, to complex web and mobile applications that work across platforms.

We've completed successful projects for small businesses, large corporate clients, franchises, and even non-profits. Our work spans many verticals and includes clients like FDA, DARPA, Nissan, AnyLabTestNow, CMIT Solutions, iFranchise Group, Adplorer, California Closets, Honeybaked Ham, Michigan State College, Columbia Pictures and many others.
