

# Hamza Shafique

SENIOR MOBILE DEVELOPER

## Profile

Dedicated Senior Mobile Developer with over 5+ years of proven expertise in designing and implementing innovative and high-performance mobile applications. Proficient in Agile methodology, I excel in leading and mentoring development teams to deliver outstanding results. My portfolio features a wide range of successful projects, demonstrating my adaptability and commitment to staying at the forefront of mobile technology.

## Education

### Bachelor of Science in Software Engineering, Bahria University, Karachi

MARCH 2017 — JULY 2021

## Employment History

### Team Lead Mobile Development, NOORUSOFT, Karachi

JANUARY 2023 — OCTOBER 2023

As a dedicated Team Lead at NOORUSOFT, I oversee a portfolio of one critical mobile application: Shaadi organization and some projects as well. My multifaceted role encompasses diverse responsibilities, demonstrating my commitment to delivering exceptional results and driving innovation.

Key Responsibilities:

- **Team Leadership:** Lead and manage a dynamic team of developers, providing clear task assignments, guidance, and support to ensure project success.
- **Training and Development:** Identify training needs within the team and provide opportunities for skill development and growth.
- **Client Relations:** Cultivate positive client relationships, understanding their needs and ensuring their satisfaction with the delivered products and services.
- **Technical Expertise:** Stay up-to-date with the latest mobile app development trends, technologies, and best practices to ensure the application's competitiveness.

### Mobile Development, Zip24 , Dubai (UAE)

DECEMBER 2021

As a dedicated Mobile developer at Shipox, I oversee a portfolio of two critical mobile applications: Shipox Driver and Shipox Customer. My multifaceted role encompasses diverse responsibilities, demonstrating my commitment to delivering exceptional results and driving innovation.

Key Responsibilities:

- **Strategic Roadmap Development:** Analyze new feature requests,

conceptualize their integration, and formulate comprehensive roadmaps to drive application enhancements.

- **Development Expertise:** Actively engage in hands-on development and daily customer ticket support, ensuring seamless operation and swift issue resolution.
- **White Labeling Management:** Skillfully manage the white-labeling process, creating distinct product flavors tailored to specific client requirements.
- **Code Review and Architectural Guidance:** Conduct rigorous code reviews, offering constructive feedback, and facilitating the implementation of best architectural practices to maintain code quality and scalability.

Application Features:

- **Live Driver Tracking:** Pioneered the implementation of real-time driver tracking, enhancing customer visibility into shipments.
- **Real-Time Order Updates:** Ensured timely updates on order statuses, promoting transparency and efficiency in operations.
- **Batch Updates:** Developed and integrated batch update functionalities to streamline data processing.
- **Real-Time Recipient and Sender Signatures:** Spearheaded the integration of real-time signature capture functionality for both recipients and senders, enhancing the accountability and verification process for deliveries.
- **Real-Time Online Payment Integration:** Seamlessly integrated real-time online payment options, catering to diverse client preferences. Supported payment gateways include Stripe and customized MPOS connectivity, enabling secure and efficient transactions directly within the mobile app, particularly valuable for Cash-on-Delivery (COD) scenarios.

## Sr. Mobile Developer, MangoTech Solutions, Karachi

JANUARY 2021 — DECEMBER 2022

As a Senior Mobile Developer at MangoTech Solutions, I played a pivotal role in driving innovation and delivering high-impact mobile solutions. Over my tenure, I successfully executed a range of projects, contributing to the company's growth and reputation for excellence in the mobile development industry. My experience at MangoTech Solutions has enhanced my expertise and broadened my horizons in mobile development, making me a valuable asset in the ever-evolving landscape of mobile technology.

Key Contributions:

- **Design**
- **Development**
- **Maintaining**
- **Optimization**
- **Reviewing**
