

Facebook and Instagram Ads Specialist – Marketing Expert

Looking for a Social Media Ads specialist to set up highly targeted and profitable Facebook, Instagram and Google Ads & optimize the performance of your existing campaigns?

Congratulations, you have come to the right profile.

Clients Reviews:

"Mushtaq delivered good work on this YouTube influencer marketing project and I enjoy working with him. His communication is top-notch and he meets all deadlines. Apart from that, his professional skills are reasonably strong. He keeps in touch with us and let us know the process of the project. In this way, we get to know the emergencies and we can deal with those cases on time. Also, he is a warm-hearted person and always give us some useful and professional suggestions. At one point I asked for an additional milestone and he was very forthcoming that the additional work was outside his area of expertise. I enjoy working with Mushtaq and will likely have additional jobs for him in the future." Says - **Eileen Murphy**

"Muhammad delivered good work, was on time and I am happy with the results of his work." Says – **Steve White**
