Frontend ReactJs Developer

Hi, I'm a Frontend (Javascript) Developer has six years of experience with Frontend frameworks like React-js, Angular-Js, and Vue-js. I have done client projects and projects with good collaborations with brands.

Work experience

TheDatech

— May 2021 Present

Senior Front-End Developer (React-js, AngularJs, VueJs)

- 1:Develop high performance customer facing e-commerce application using ReactJS, Redux,Redux Toolkit, React Hooks, React-Router, XML and JSON, Javascript, HTML5, CSS3, SASS, Bootstrap,
- 2:Built custom components for UX-Library consisting Accordion, Filters, Dropdown, Carousel, Button, Checkbox, Input, Icons.
- 3:Developed custom API layer to handle all CRUD transactions, JWT token management and implemented interceptors to embed custom headers
- 4:Maintained High-Level expertise in React state management strategies, including Redux, Redux Persist and redux-saga
- 5:Exclusively used React-Hooks to perform the application life-cycle processes
- 6:Project was implemented by following TDD using jest framework for React along with Enzyme test utilities.
- 7:Worked closely with clients to establish specification and system designs. Used Zaplin and Invision to collaborate with UX.
- 8:Used Middleware, Redux-Saga with ImmutableJS in application to retrieve and store data from Back-End and to also perform RESTFUL services.
- 9:Effective use of native JSX elements and custom tags to enhance SEO optimization and application ADA compliance feature.
- 10:Implemented CSS BOX Model and Styled web pages using CSS preprocessor SASS and effectively used mixins, functions custom grid systems, grid-area concepts and Flexbox for a full-responsive application.
- 11:Expertise usage of GitLab and Jira as a version control and tracking units.
- 12:Worked in Agile Methodologies for incremental development to deliver better application.
- 13.Used understanding of React fundamentals to promote better component lifecycle practices, increasing turnaround speed by 23% with 100% deadline adherence
- 14.Crisp Communication with Clients and work as an interface between team members and Client counterpart
15. Cpanel, WHMCS Controlling, Hosting management, FileZilla FTP
- 16.Develop technical documentation to define the system components, development environment and implementation planning/strategies
- 17.Collaborate with QA team to define test cases, metrics, and resolve questions about test results
- 18.Recommend business process flow improvements and clearly communicate problem/resolution process to project management
- 19.Developing and Administer the new Angular/vuejs based website
- 20:Architect, design, and develop responsive client facing software applications based on Reactjs, Angular, Vuejs

Procreative Solutions

Jun 2020 — April 2021

Senior Front-End Developer (React-js, AngularJs, VueJs)

- 1.Work with test engineering team to assure project quality
- 2:Work extensively with API team to implement creative Chat Bot communication platforms from UI perspective.
- 3:Closely monitor the usage of Google Dialog flow Technology and procure the intent-based response to perform intuitive communication feel on User interface.

- 4.Coordinating the workflow between the end user, product OWNER, developer, and yourself
 - 5.Taking an active role in structuring our single page applications to make them easy to maintain and to ensure they are highly modularized
 - 6:Implemented latest Ecmascript6 (ES6) feature to echange code standards and maintainability.
 - 7:Extensive usage of Gradle & webpack to build Microservices, UI components and pipeline it smoothly for CI/CD using jenkins
 - 8: Translate wireframes into interactive, dynamic code.
- Strong knowledge of version control tools like GIT, SVN, Bitbucket.
- 9: Build AWS servers by executing jenkins automated jobs and involve in server maintenace.
 - 10.Work in Test Driven Development environment, leveraging QA automation test suite to provide unit tests and integration tests for all new functionality
 - 11.Cooperating with the back-end developer in the process of building the RESTful API
 - 12:Work alongside the backend developers to integrate APIs and services
 - 13:Solution-oriented, can take the initiative, responsible,
 - 14.Followed documentation to always remain up-to-speed on what needs to be updated in response to new release versions.
 - 15:Design animated web pages by importing the @angular/animations to echange customer service chat experience.
 - 16:Define new validation through AngularJS for the form field validation implemented through HTML5
 - 17: Project Technology Stack: HTML5, CSS3, Javascript,jQuery, Typescript, Bootstrap, SASS, LESS, Reactjs, Angular, Vuejs, Webpack, Visual Studio, Git Lab.

InfoTech

Jan 2019 — May 2020

Senior Front-End Developer (React-js, AngularJs, VueJs)

- 1.Architect, design, and develop responsive client facing software applications based on Reactjs
- 2:Worked with a team of developers to resolve front-end and CSS issues
- 3:Design simple pages and components using Skitch.
- 4:Responsible for Implementation of new mainframe development project
- 5:Developed and managed project plans while providing status updates to management
- 6:Wireframe architecture map and information architecture
- 7:Developed production ready, cross browser and frontend development
- 8:Worked in a team enviroment with Agile methodology, transformed complex concepts into simple, elegant, and approachable experience, services, and products.
- 9:Worked closely with project manager,team lead , graphics designers, software engineers, and QA resource through the complete systems development life cycle.
- 10:Created and designed the main portal from ground up
- 11:Analyzed UI/UX design for responsive layout for improved usability
- 12:Collaborated with other virtual team members
- 13:Turn design pages and specific components into HTML, CSS and Javascript
- 14:Developed and maintained legacy applications.
- 15:Analyzed UI/UX design for responsive layout for improved usability
- 16.Extensive knowledge of CSS and JS methods for providing performant visual effects
- 17:Developing responsive web applications across platforms using Javascript, JQuery in Front-End, Adobe Photoshop
18. Cpanel | WHMCS Controlling | Hosting management | FileZilla FTP
- 19:Architect, design, and develop responsive client facing software applications based on Reactjs, Angular, Vuejs

Skills

HTML | CSS | SCSS | LESS | JAVASCRIPT | JQUERY | TYPESCRIPT | ES6 | Git | Flux | Redux | REACT-JS | VUE-JS | ANGULAR-JS

Education

Master of Information Technology (MIT)

2016 — 2018

Karachi University

Associate's degree, "ACCP-PRO" 3 years
Diploma in Software Engineering
Aptech Computer Education

2015 — 2017

Bachelor of Science in Information
Technology
NED University of Engineering and Technology

2014 — 2016
