Dhaval Upadhyay

HI THERE,

Web Application Development (PHP/Laravel/CodeIgniter/PHP MVC/Wordress) eCommerce Development (WooCommerce, PHP, Shopify) Web Design (HTML, CSS, JavaScript, Bootstrap) Other Scripting Languages (Ajax, jQuery, etc.) JavaScript Libraries & Frameworks (jQuery UI, Vue.js, three.js, droone.js, etc.) Version Control Systems (Git/Gitlab/Gihub) Extensive knowledge of Gulp

I am a Full-stack developer, who is self-motivated and well versed with the development of all kind of Websites/Web Applications.

I have rich experience working with PHP and WordPress. I started my career as a PHP Trainee with one of the company and then started working as a Freelancer. Later on, I started working with the latest platforms and technologies like WordPress, Shopify, Laravel, etc.
My area of expertise are:

- Code Editors (Sublime, Notepad++, Visual Code, and many more)
- Filezilla FTP and others too.
- Servers (Linux, Apache2, Cloud based servers - AWS, DigitalOcean)
- Databases (MySQL/SQLite)
- cPanel Navigation
- API Development and API Integration
- Custom Development (Website, Wordpress Themes & Plugins)
- Bug Fixing, Website Redesign, Optimization, etc.
- PSD convertions (PSD to HTML/Wordpress/Shopify, etc.)
- Landing Pages & Funnel Development (ClickFunnels, Kajabi, Kartara, Ontraport, Builderall, Unbounce, Instapage, etc.)
- Graphics Design (Photoshop, Illustrator, Sketch, Adobe XD, Figma, etc.)
- SEO & SMM (On-Page & Off-Page SEO and Facebook Ads, Instagram, Twitter, etc.)

Hence, I am a skillful and reliable match to work with you. I am available to work for full-time/part-time basis. I work Monday to Friday, can work on Saturdays in some emergency cases. I am available for Monthly/hourly/fixed price engagements based on the requirements.
