- Database: SQL Server 2017/2019/2022, PostgreSQL, MySQL
- Cloud: Azure
- VCS: GIT

FUNCTIONAL SKILL SET

- Ability to handle a team of developers and co-ordinate smooth delivery of the project.
- Problem solving capability peered with strong communication skills.
- Client Relationship Management, Web App Development, Proof of Concepts, Requirement Gathering & Analysis, Technical Analysis, and Application Maintenance & Enhancement.

EDUCATION

BACHELOR OF COMPUTER SCIENCE (B. TECH)

Krishna Institute of Technology Percentage: 78%

WORDED LANGUAGES OR USED IDES

LANGUAGES

- C#
- Typescript

JavaScript

IDE

- Visual Studio
- VS Code

TECHNOLOGIES

- .NET Core
- Angular 12
- Material Angular
- Azure

PROJECTS

1. ELN, WEB APPLICATION

ROLE: FULL STACK DEVELOPER

TECHNOLOGY: ANGULAR 14, ASP.NET CORE 6.0, SQL SERVER 22

Description

- This is an application to maintain the searchers data electronic way, and manage, search and filter the different type of data.
- Data lake and system to create a common way to store and process data. So, in future we can use that data for AI.
- Workflow module which is used to create different-different task inside the lab. And it's a dynamic process to create that task by just drag-drop the component.

Responsibilities

- Played major role in implementation of front-end and back-end.
- Developed Rest full API's Using Asp.net core.
- Developed User Interface Screen Using Angular.

2. ACCOUNT ERP, WEB APPLICATION

ROLE: FULL STACK DEVELOPER

TECHNOLOGY: ANGULAR 8, ASP. NET CORE 6.0, SQL SERVER 17

Description

 This is a web-based application to be built as a solution for general accounting options for adding bills, payments, expenses, invoices, deposits, managing accounts, sales tax, items, and services.

Responsibilities

- Responsible for gathering requirements.
- Developed Rest full API's Using Asp.net core.
- Developed User Interface Screen Using Angular.
- On time issue fixing for smooth completion of End of Day, Month End and Year End.

3. EXPSPLIT, MOBILE APPLICATION

ROLE: FULL STACK DEVELOPER

TECHNOLOGY: ANGULAR 14, ASP.NET CORE 6.0, SQL SERVER 22

Description

- Expense Tracking: Users could easily track their expenses by adding, editing, and deleting expenses within the app. They could specify details such as expense amount, category, date, and description, making it easy to keep a record of their spending.
- Expense Categories: The app allowed users to categorize their expenses into different categories, such as food, transportation, entertainment, etc. This helped users to gain insights into their spending patterns and make informed financial decisions.

Responsibilities

- Responsible for gathering requirements.
- Developed Rest full API's Using Asp.net core.
- Developed User Interface Screen Using Angular.

HOBBIES

- Problem Solving
- Reading Books
- Listening music
