MongoDB

Css

JavaScript

HTML5

Bootstrap

SQL

Java

ES6+

Express JS

C/C++ Programming

Python Programming

LANGUAGES

English

Native or Bilingual Proficiency

Korean

Limited Working Proficiency

French

Elementary Proficiency

INTERESTS

Machine Learning

Web development

Artificial Intelligence

MERN Stack

EDUCATION

Intermediate IMCG F-10/2

08/2015 - 08/2017

GPA: 3.35

Bachelors Of Science in Computer Science NUML H-9

09/2017 - 08/2021

GPA: 3.41

Courses

- Advance OOP
- DB Management Systems
- Web Design & Development
- Artificial Intelligence
- C++ Programming
- D&A of Algorithms
- Operating System Concepts
- Mobile Application Development

PERSONAL PROJECTS

Online Shopping Website (03/2019 - 05/2019)

- The website was developed using HTML, CSS and Bootstrap. JavaScript was used for security and query processing.

Online Exam Generator (10/2019 - 01/2020)

- The system was developed by using Java MVC. System had 2 modes i.e. admin and student. Admins can modify exam questions and subjects as well as students. Students can login and take exams.

Personality Prediction Using Facial Images (08/2020 - 07/2021)

- The system was developed using python programming language with deep neural networks. The system predicted user's personality by providing it a facial image. Front-end of the system was also designed using python pycharm and Qt designer.

Car Rental System (08/2022 - 08/2022)

- Completely developed using MERN. User can book car, view booked time slots for a particular car and view their bookings. Admin can add, remove, view, and edit car details. Used Ant Design, Redux, React.js, Node.js, Express and MongoDB.
