ABOUT ME

I am Hasna, and I hold a master's degree in information technology from the University of Sargodha. During my studies, I took the initiative to develop an e-commerce platform for Zakaria Sweets and Bakers, This platform included both admin and user panels, providing a modern and efficient solution for managing online sales and customer interactions.

EXPERIENCE

I am actively freelancing as both a web developer and graphic designer with 1 year of experience. I offer my services across multiple platforms, including Fiverr and Workchest. With my expertise, I provide modern and innovative solutions to meet the diverse needs of my clients, ensuring high-quality results and customer satisfaction.

OBJECTIVE

I want a supportive job to learn and grow. I like working on challenging projects with others. I'm always learning and want to advance. My goal is to help the company succeed and become a skilled IT professional.
