MongoDB, REST API,  
Git, Bitbucket, Jira,  
Trello, GitLab,  
AWS S3, AWS CodeCommit

---

## WORK EXPERIENCE

### Alten Calsoft Labs

Oct 2021 - May 2024

#### Software Developer

- Led the enhancement and modernization of a legacy web application by upgrading the existing React library and associated dependencies. This initiative resulted in improved application performance, enhanced security, and streamlined development processes.
- Optimize application performance through code refactoring and other techniques.
- Developed scalable web applications using Next JS and typescript in e-commerce healthcare industry.
- Collaborated with cross-functional teams to design and implement software solutions according to client requirements.
- Conducted thorough testing and debugging to ensure the quality and reliability of software product.
- Contributed to the continuous improvement of development processes and methodologies.
- Actively participated in code reviews and provided constructive feedback to team members.
- Successfully delivered 2 projects on time and within budget, resulting in positive client feedback and increased customer satisfaction.

### Lanet Team Software Solutions

Jan 2018 - Aug 2021

#### Software Developer

- Designed and developed responsive and user-friendly web applications using HTML, CSS, JavaScript, React.
- Implemented RESTful APIs and backend services using Node.js, Expressjs.
- Integrated third-party services and APIs to enhance application functionality and user experience.
- Collaborated closely with designers and stakeholders to translate requirements into technical specifications and deliverables.
- Conducted code reviews and provided mentorship to junior developers to ensure code quality and adherence to best practices.

## EDUCATION
