

Saif Abdullah Sadik

Catch Bangladesh

ABOUT ME

Being a fresh graduated engineering student, trying my level best to gain different skills to maintain both the study, working experience and skill development.

Moreover, want to be one of the great influential entrepreneurs of my time. Also trying to bring a revolutionary change in digital content making and marketing from a technological aspect with the help of unique concepts, modern Data science, Artificial intelligence, and Machine Learning.

Additionally, I am an accomplished client-facing versatile visual artist with over 5 years experience of Motion Graphics, Animation and more. Proficient in managing a large multi-disciplinary team to deliver complex international projects, I combine excellent concept art planning with strong visualizations skills to ensure client projects are delivered on time and within budget.

Furthermore, I always like to take the challenge of accomplished any challenging work. I take myself as a passionate learner, responsible team member, and constructive thinker. The dynamic personality and pressure handling capability I carry with my sincerity and modesty will bring a positive impact on your working environment.
