## ABOUT ME AND VISCHOICE

Hi, everyone!

My name is Vadim Kim.

I am the founder and art director of the VISCHOICE, leading the team of talented artists.

VISCHOICE - Innovative and accomplished visual artists specializing in creating dynamic virtual architectural environments, where modern cars become integral parts of unique visual and technical concepts. Our work combines virtual architecture, automobiles, and visual arts to create unique and captivating experiences. As a team, we are dedicated to crafting dynamic visual narratives that attract clients and interested parties.

We aim to offer people more visual choices they want to see, across various categories and sizes, while also providing sustainable solutions that enhance the level of visual impact for businesses and create positive changes for the planet.
