PROFILE

An artist who chose Architecture as a medium to create something of value for this global canvas. Studying a degree in Architecture and a **Diploma in Interior Designing** allowed me to develop my **passion for design** and the **technical skills** required to work in architectural practices. As an Architect I have learnt how to creatively problem solve in an innovative and more efficient way with functional and unique outcomes. I'm excited to listen, learn and explore alongside gaining new experiences in this industry.
